## EXPERIENCE

### GOODPASS

Frontend developer

remote

Mar 2024 - Present

- Experienced in front-end development, with responsibilities spanning requirement analysis, design, coding, integration, and testing.
- Collaborated with business analysts in the requirement analysis stage to assist the team in dissecting the requirements into actionable implementation specifics.
- Teamed up with management to build and maintain microservices using Node.js and Express.js, resulting in enhanced performance for the official website of the store.

### SoftXways ApS

Software Engineer

remote

Jun 2021 - Feb 2024

- Created and integrated frontend components for a comprehensive project management solution, enabling seamless project monitoring, time tracking, and user management functionalities.
- Reducing website loading time by 20% by optimizing code and implementing caching strategies  
Improving user engagement time by 40% by enhancing the website's interactivity using Vue.js and Vuex  
Implementing a custom project management system using DHTMLX Gantt, which resulted in a 30% increase in project completion rates.
- Conducted code reviews and provided constructive feedback to ensure adherence to coding standards and best practices, actively participating in UI/UX and API discussions to enhance overall system functionality and user experience.

### Byte Academy

Byte Academy

Bengaluru, India

Dec 2019 - Feb 2021

- Created and implemented an interactive dashboard interface using Vue and Nuxt frameworks, empowering clients to effectively oversee and analyze live data in real-time.
- Contributed to the development of multiple applications utilizing Python, Flutter, React, and Vue.js, seamlessly integrating them with backend systems to optimize content management processes.
- Well-versed Agile methodology, Version control system (GIT), Defect Tracking tool (Jira).

## PROJECTS

### FoodHub Python, HTML, CSS, Bootstrap, Flask, SQL

<https://github.com/sky-97/FoodHub>

Your ultimate food search destination with comprehensive price comparisons from top food ordering platforms like Zomato, Swiggy, and Ubereats, streamlining the ordering process through seamless redirection to respective booking sites.

### Blog JavaScript, React.js, Redux, Tailwind

<https://github.com/sky-97/react-blog>

Developed an interactive blogging platform with React.js, Redux, and Tailwind CSS. Users can effortlessly create and publish posts, while Appwrite backend services ensure smooth authentication and data management.

## EDUCATION

### Manipal University Jaipur

Bachelor Computer Applications GPA: 8.3

Jaipur, Rajasthan

Oct 21 - Dec 24

### Byte Academy

Certification Python Full Stack

New York, USA

Jan 19 - May 19
