Location: Noida

EDUCATION

UPES, Dehradun

B.Tech in Computer Science

2015- 2019

SKILLS

- **Programming Languages** - Java(Java 8)
- **Web Technologies** - HTML, CSS, JavaScript(Basic), React JS(Basic)
- **Frameworks** - Spring Boot, Microservices, Apache Kafka
- **ORM Frameworks** - Hibernate, Spring Data JPA
- **Database** - MySQL
- **Servers** - Tomcat
- **Tools & Utilities** - STS, Jenkins, SonarQube, Maven, Log4j, GIT, Postman, JIRA, SNYK, Docker, Junit
- **Webservices** - Rest Webservices
- **Cloud Technologies**- Azure Kubernetes Services, AWS

PERSONAL SKILLS

- Demonstrating leadership qualities.
- Taking ownership and initiative in tasks.
- Working effectively under pressure.
- Collaborating well within teams.
- Showing proactive problem-solving skills.
- Zeal to learn new technologies.

PROFESSIONAL SUMMARY

To secure a challenging position in a progressive organization, leveraging 5+ years of expertise in Java development, microservices, and cloud technologies. Aiming to contribute effectively to team success and organizational growth.

WORK EXPERIENCE

● Cognizant Technology Solutions

Nov 2021- Present

○ Manulife Bank - P2G Logging (Associate)

- Obfuscated PII data for all APIs to maintain security.
- Upgraded logging tools and implemented new logging patterns for legacy applications.
- Ensured robust code quality and security with tools like SonarQube and Snyk, achieving a 70% reduction in critical vulnerabilities while enhancing overall system resilience.

○ Manulife Insurance– John Hancock (Associate)

- Design and develop Restful APIs using Spring Boot to acquire policy details and initiate the surrender process.
- Coded all necessary POJOs and DAO classes.
- Implement endpoints for retrieving policy information using Rest Template, calculating surrender values and processing surrender request.
- Implemented AKS auto-scaling and integrated NewRelic for advanced monitoring and alerting.
- Attending and contributed to Scrum meetings, addressing various project issues and ensuring continuous progress.

○ Manulife Insurance PCF to AKS Migration (Programmer Analyst)

- Transformed PCF spring boot microservices to work with Azure Kubernetes Service with configuration changes, code upgradation, and development reducing costs by 25% and enhancing data integrity.
- Create & deploy Jenkins pipelines for AKS target environment (DEV, SIT, UAT, UAT-DR, PROD, and PROD-DR).
- Ensure SonarQube/Snyk/Fortify quality gates are met.
- Running and programming cloud migration tool UPSHIFT to generate cloud assessment reports of Spring Boot services running in Pivotal Cloud (PCF).

● Infogain India Pvt Ltd

Jan 2019- Oct 2021

○ Indirect Vertex Inc (Software Engineer)

- Supported a development project focused on creating and maintaining a Vertex application designed for indirect tax calculation.
- Worked on Diagnostic Module of Vertex Application.
- Conducted extensive testing and debugging.

AWARDS AND RECOGNITIONS

- Working as one Award in Cognizant.
- Always striving, never settling Award in Cognizant.
