Noida, India.

PROFESSIONAL SUMMARY

- Nearly 5 plus years of experience in designing, developing, testing and maintenance as per quality standards using **Agile and waterfall methodologies** using **JavaScript, jQuery, PHP, CodeIgniter and Laravel**.
- Good Object-Oriented Programming knowledge on Core Java, Collections, Multi-Threading, Exception Handling, OOPS Concepts.
- Involved in Software Development Life Cycle (SDLC) which includes requirement Gathering, Design, Coding and Testing.
- Debugging web applications using **Mozilla Firebug, Chrome Developer Tools for Chrome** and **IE Developer Toolbar for Internet Explorer**.
- Design and development of Document Object Model (DOM) & DOM Functions and client-side validations using **JavaScript and jQuery**.
- Strong development experience with **HTML, DOM, XML, XHTML, CSS, AJAX** and **JQUERY**.
- Experience of **JavaScript minification tools** and **unit testing**.
- Experience with **Eclipse IDE, Sublime Text, Dream Weaver** and **Notepad++**.
- Problem solving, planning skills with ability to work independently or in a team environment and willing to adapt to new challenges & new technologies.

TECHNICAL SKILL SET

Operating Systems	Windows XP/Vista/7/8/10
Web Technologies	HTML/HTML5, CSS2/CSS3, DHTML, XML, XHTML, JavaScript, AJAX, jQuery, JSON, Apache, PHP, CMS, DOM, Laravel, CodeIgniter.
Programming Languages	JavaScript, JQuery, Ajax, Java, PHP, MySQL.
IDE, Editors	Eclipse IDE, Notepad++, Sublime Text, Dream Weaver.
Database	My SQL
Debugging Tools	Firebug, Chrome Developer Tools.
Web Servers	HTTP Web Server, Apache Tomcat, XAMPP
SDLC	Waterfall, Agile.
Browsers	Firefox, Chrome, IE, Opera.

EXPERIENCE

Organization	Designation	Duration
Excite Software Services	Web Developer	Dec 2017 to Dec 2019
GrowthMode Consulting Limited	Web Developer	Jan 2020 to Feb 2022
Perzue Healthcare PVT LTD	Senior Developer	March 2022 to Present

QUALIFICATION

Graduated in Computer Science and Engineering from AVN Institute Of Engineering And Technology during 2013-2017.

PROJECT DETAILS

SDP (ServiceDesk Plus)

Role	:	Senior Web Developer.
Client	:	Lifecare, Nairobi, Kenya.
Environment	:	JavaScript , JQuery, Ajax, Laravel 7.4 & MYSQL.
Company	:	Perzue Healthcare PVT LTD.

DESCRIPTION

This ticketing system is developed to track IT service requests, events, incidents, and alerts that might require additional action from IT.

RESPONSIBILITIES

- Developed Ticket creation for a user to raise query or concern.
- Capture all tickets from different channels/sources in one central location.
- Send reminders to concerned agents to close/resolve ticket in a timely manner.
- Escalation to concerned people if tickets are not closed in a timely manner.
- The ticketing system is designed to assign tickets to the most appropriate agents or departments based on predefined rules or manual selection.
- Email notification will be sent to the user once a Ticket is closed, or user respond to the ticket.

HMS (Hospital Management System) ERP

Role	:	Senior Web Developer.
Client	:	Lifecare, Nairobi, Kenya.
Environment	:	JavaScript, JQuery, Ajax, Laravel 8 & MYSQL.
Company	:	Perzue Healthcare PVT LTD.

DESCRIPTION

We design ERP For Healthcare(HMS) with features for registering patients, recording patient demographics and medical information, processing insurance, and automating administrative duties such as maintenance checks and accounting operations. We design intuitive scheduling interfaces for managing patient appointments and procedures as well as staff schedules.

RESPONSIBILITIES

- ERP Healthcare or Hospital Management System (HMS) provides both clinical as well as patient care aspects to hospital management.
- This is divided into different modules, each addressing a specific activity of the hospital.
- Each module can be used as a standalone solution or can be integrated in a phased manner.
- It includes Registration/Admission, Discharge, Transfer, Laboratory, Pharmacy, Insurance, Electronic Medical Records, Trial Balance and more.

INTIMA (Insurance Management System)

Role	:	Web Developer.
Client	:	Chester Insurance, Nairobi, Kenya.
Environment	:	JavaScript , JQuery, Ajax, Core Php 5.6 and MYSQL.
Company	:	Growthmode Consulting Limited.

DESCRIPTION

We have developed an integrated dashboard application for Insurance Management System. This software helps to maintain all the documents of client and insurance company information about the clients and their policy details. The main objective of this web based software is to store and track the policy details, perform premium calculation and generate prints for client and insurance companies. It also includes claims module for claiming of policy and account module for managing the accounts.

RESPONSIBILITIES

- To collect and understand the business and functional requirements.
- Translate application storyboards, sample Excel and use cases into functional applications.
- Active contributions in analysis and design of requirements.
- To design the database, creating the front end and back end of database for web application.
- Developed Admin, Motor, Marine, Bond and Non-Motor module based on the user type.
- Involved in Accounts Module and report generation and exporting to PDF and Excel, to deal with the accounts, such as Trial Balance Debtors report, Ledger report.
- I have added some extra modules for existing project and modified some modules.
- Configured automatic E-Mail notification for the Claims module, Accounts module, User module.

Easy School Management (ESM)

Role : Web Developer.
Environment : JavaScript , JQuery, Ajax, Core Php 5.6 and MYSQL.
Company : Exite Software Solutions.

DESCRIPTION

The ESM is the School Management System which stores every information of each and every student. This system will also let the school management send updates to the parents through Email.

RESPONSIBILITIES

- Worked on **HTML/HTML5**, **CSS/CSS3** style sheets, **JavaScript** and **JQuery** to tie together a diverse range of sites with an easily understandable structure.
- The validations and backend database connections are done using **Php** and **MYSQL** database access to the Apache server.
- Tested indifferent browsers like Chrome, Opera, Firefox and Internet explorer.
- Debugged the code using the Chrome developertools.
- Involved in the maintenance and site updating at regular basis.
