## Professional synopsis:

With 9 years of comprehensive SAP experience across multiple modules such as HR, SD, MM, and FI, I am a dedicated SAP ABAP Developer adept in delivering exceptional client satisfaction. My expertise spans 2 Implementation projects, 3 Support + Development projects, and 1 Production Support Project. I excel in designing, optimizing, and developing ABAP RICEF objects, and proficient in utilizing diverse tools such as ServiceNow, Automation Tools (StoneBranch, CA Workstation, PagerDuty, New Relic), Boomi, CPI, IBM Infosphere, and Toad Oracle to drive project success.

## Technical Skill set:

### SAP Development Expertise:

Proficient in ABAP development, encompassing Reports, Interfaces, Data Migration, Enhancements, and Forms (RICEF), ODATA, CDS Views, Basic knowledge of IDOCs, experienced in designing and implementing complex solutions to meet business requirements.

### Forms and Reporting:

Skilled in developing Adobe Forms, Smart Forms, and Classical, interactive, ALV Object Model (SALV) based ALV reports for efficient data presentation and user-friendly interfaces.

### Debugging and Performance Optimization:

Strong skills in SAP debugging, dump analysis, and performance analysis tools like ST05, SE30, SCI, ST12, EPH, Code Inspector to ensure optimal system functionality and response times.

### Integration and Interfaces:

Skilled in developing File Interfaces, RFCs, and OData services for seamless integration between SAP and external systems. Knowledgeable in Boomi and CPI for cloud-based integration solutions, facilitating seamless connectivity between SAP and external applications.

### SAP Modules Expertise:

Extensive knowledge across SAP modules including SD, FI, MM, and HR (HR-ABAP), SuccessFactors IC jobs.

### Automation and Monitoring Tools:

Proficient in using StoneBranch, CA Workstation, New Relic, and PagerDuty for scheduling, monitoring, and optimizing SAP processes and system performance.

### Production Support:

Skilled in using ServiceNow for incident management, Problem management, change management, Transport Management (SOLMAN), SAP Job monitoring, and providing comprehensive production support to ensure system reliability and uptime as a Team Lead cum Manager.

### Technical Documentation:

Skilled in preparing technical specifications, user manuals, and documentation, SOPs, Hand-Books for developed ABAP solutions and integrations.

### Visio Flowchart Development:

Skilled in using Microsoft Visio to create flowcharts. Developed detailed flowcharts to describe the flow of old, legacy programs needing modification. Adapted and updated program logic based on new requirements, removing outdated logic from extensive ABAP reports.

## Certifications:

**SAP Certified Development Associate - ABAP with SAP Net Weaver 7.31**

## Employment History:

Organization	Designation	Duration
Capgemini India, Pune	Sr. SAP Consultant/Manager	Feb 2022 – Present
Atos Syntel, Pune	SAP Consultant	May 2015 – Feb 2022
Ericsson India Pvt. Ltd., Jaipur	Quality Engineer	September 2013 - May 2014

## Project Details:

Client	Technical Team Size	Role
New York Life Insurance	12	Team Lead/Manager
Bank Of Maharashtra HRMS S4/HANA Implementation	16	Senior SAP Technical Consultant
Procter & Gamble	15	SAP Technical Consultant
Xerox UK	14	SAP Technical Consultant
IIT Bombay ERP-Implementation	21	SAP Technical Consultant
DRC (Dubai Refreshment Company)	9	SAP Technical Consultant

## Work Experience:

**Capgemini India Pvt. Ltd. – Pune**

February 2022 to Present

### **New York Life Insurance Production Support - Manager**

This project involves providing production support for various applications integrated with SAP EC and SAP ECP systems. Responsibilities include supporting all application interfaces with various vendor applications for New York Life (NYL).

#### **Roles and Responsibilities:**

- ✚ Experience of SAP Production Support as a Team Lead cum manager, worked on SAP ECP, SuccessFactors, Knowledge of Automation Tools like StoneBranch, Pager Duty, New Relic, CA Workstation.
- ✚ Lead, train, and mentor a team in SAP ABAP development while coordinating with clients and vendors in production support projects.
- ✚ Supported Various Inbound and Outbound Interfaces in Production Support.
- ✚ Participating in various Process improvements process to improve the current project architecture.
- ✚ Knowledge of ServiceNow tool as per Production Support like Incident, Problem, change management processes.
- ✚ Worked on Cloud Based Integration platform Boomi and SAP CPI in Production support.
- ✚ Use of Solution Manager (CHARM) for creation and migration of Transport Requests and STMS in SAP.

### **Bank Of Maharashtra: SAP S4/HANA HRMS Implementation - SAP Senior Technical Consultant/Team Lead**

This project encompassed a wide range of critical Bank Processes, including Personnel Administration, Personnel Time Management, Organizational Management, Recruitment, Employee Payroll and Training.

#### **Roles and Responsibilities:**

- ✚ Assess and ensure the feasibility of functional requirements specified in the Functional Specification.

- ✦ Collaborate with the Functional Team to resolve issues in the assigned objects.
- ✦ Develop and manage various RICEF objects like Reports, Enhancements, Forms(Adobeforms), Data Migration (BDC & BAPI).
- ✦ Design and develop OData Services from scratch for Fiori Requestor and Approver applications.
- ✦ Create Adobe Forms for HR from the ground up.
- ✦ Create OO-ALV report for business reporting
- ✦ Develop HR ABAP reports using Logical Database (LDB).
- ✦ Build CDS Views from scratch.
- ✦ Develop custom HR infotypes and enhance standard infotypes.

**Atos Syntel Pvt. Ltd. – Pune**

May 2015 to February 2022

### **Procter & Gamble - SAP Technical Consultant**

Procter & Gamble (P&G) involving the development and support of their Shares Portal, named Etrade. My responsibilities included developed ABAP Objects as per their requirement, providing ongoing support, and collaborating with P&G's teams to meet their specific needs.

### **Xerox UK - SAP Technical Consultant**

Xerox support and development project, which encompassed various modules, including FI, MM, SD, and CRM.

#### **Roles and Responsibilities:**

- ✦ Understanding the feasibility of the functional requirements specified in the Functional Specification.
- ✦ Interacting with Functional Team to resolve the issues in the given Objects.
- ✦ Developed Adobe Forms for HR and FI, MM, SD, from scratch.
- ✦ Develop and manage various RICEF objects in implementation, development, and support projects
- ✦ Worked on File Interfaces for inbound and outbound processes.
- ✦ Enhanced standard transaction reports for SD, FI modules to meet customer requirements.
- ✦ Developed Reports related to HR ABAP using LDB
- ✦ Expertise in dump analysis and code optimization
- ✦ Proficiency in performance tuning using various debugging tools.
- ✦ Worked on IDOCs for some tickets.
- ✦ Design Flowcharts for business with the help of Microsoft VISIO Tool.
- ✦ Worked on web-based tool (MPCT tool).
- ✦ Preparing the Technical Specification (TS) based on Functional Specification.
- ✦ Developing Objects and Executing Unit Tests on all objects prior to formal delivery.

### **IIT Bombay ERP-Implementation - SAP Technical Consultant**

SAP implementation project at IIT Bombay, where I contributed my expertise to various modules, including FI, MM, SLCM, and HR.

#### **Roles and Responsibilities:**

- ✦ Understanding the feasibility of the functional requirements specified in the Functional Specification.
- ✦ Implemented SAP ECC 6.0, primarily covering MM, FI, and HCM modules
- ✦ Worked from the initialization phase till go-live actively contributing towards ABAP development objects
- ✦ Developed various reports (ALV reports, Interactive, HR reports) for MM and FI, HR from scratch.
- ✦ Data Migration: BDC programs for FI and SD, HR & LSMW.
- ✦ Created custom output forms using Adobe Forms for standard and custom transactions.
- ✦ Enhanced standard transaction reports for FI and MM modules to meet customer requirements.
- ✦ Preparing the Technical Specification (TS) based on Functional Specification.
- ✦ Developing Objects and Executing Unit Tests on all objects prior to formal delivery.

### **DRC (Dubai Refreshment Company) - SAP Technical Consultant**

Dubai Refreshment Company (DRC) support for the SAP FI and SD modules

#### **Roles and Responsibilities:**

- ✦ Debug Reports related to SD & FI modules.
- ✦ Expertise in dump analysis and code optimization using various ABAP Tools.
- ✦ Preparing the Technical Specification (TS) based on Functional Specification.

**Ericsson India Pvt. Ltd. – Jaipur, India**

September 2013 to May 2014

### **Quality Engineer**

#### **Roles and Responsibilities:**

- ✦ Inspection of various telecom radio units like RBS, MSE, BSE etc.
- ✦ Collection of data and Identification of faults.
- ✦ Product Verification according to its Work order.
- ✦ Distribution of work among the team members and giving them responsibility of handling different machines.

### **Internship:**

#### **Bangkok University, Bangkok (Thailand) - September 2012 - November 2012**

Mentor – Dr. Karel Sterckx

Project-Persistence of vision on FPGA B-Micro Stick

Job-Description – Projects started with study on FPGA B-Micro Stick, Model-Sim & Quartus tools.

Result was sine wave generation and running light production on FPGA board using persistence of vision concept using PWM technology.

### **Achievements:**

Member of IEEE (Session 2010-2011)

Co-ordinated workshop for Microsoft Dream Spark Yatra, 2012, Pilani

Won Gold Medal in C.B.S.E Cluster for Volleyball

Represented College as a Captain of Volleyball team at BITS, Pilani

Cultural Coordinator of Basant and Quasar (College Fest)

Established S.O.C, Dance Club at BKBIET

### **Educational Qualification:**

#### **B.K. Birla Institute of Engineering & Technology, Pilani.**

B. Tech, Electronics & Communication, July 2009 - July 2013.

Aggregate – 65.05%

### **Personal Information:**

Date of Birth: 20th June 1991

Passport Number: K3398380

Language: Hindi, English
