

Amrut Swagat Dwivedy

Education

BTech in Electrical and
Electronics Engineering from
BPUT, Orissa, 2013

Domains Worked

Transportation, Healthcare &
Insurance

Phone: +91-6371731681

Email: amrut.dwivedy@gmail.com

Location: Bangalore

Profile

Java, J2EE professional having end-to-end design and development hands-on experience. Skilled programming in Java and J2EE to develop web applications and APIs. Complex problem-solver with analytical and driven mindset. Dedicated to achieving demanding development objectives according to tight schedules while producing impeccable code.

Key skills

Programming language and Frameworks:

Core Java, J2EE, Spring Boot, Spark API, REST API, SOAP Webservices, JAX-WS Webservice, Drools, MyBatis Persistence Framework, iBatis Persistence Framework, PostgreSQL, Oracle, MySQL, Sybase, Spring Cloud, Spring Security

Build Tools: Maven, Ant

Environments: WebLogic App Server, JBOSS, IBM Cloud Pak for Data (CP4D), AWS Services

Frontend Technologies: JavaScript, JQuery, CSS, HTML5, AJAX

Version Control Systems: Git, ClearCase, Bit Bucket

Dev-ops pipeline and Ticketing Tool: Jenkins, XL Deploy, Jira

Mobile Technology: Android

Key courses and training

Completed AWS Certified Solution Architect – Associate Training

Work experience

Application Developer

IBM, India | Jun 2021 – Present

- Contributed technical skills for three accounts. Accounts are Humana, Elevance Health (Previously Anthem) and NABP (National Association Boards of Pharmacy).
- Committed and responsible for end-to-end development.
- Responsible for framework designing, estimation, development and unit testing.
- Helped the team with multiple POC solution with Drools engine, Java 8 stream joins, AWS Open Search, Spring cloud function etc., which later converted to actual implementation.
- In the most recent project in NABP account I have used core java and j2ee concepts for REST API development. Used below technologies/methodologies in complete development life cycle.

Core Java, Spring boot, Spring Cloud Function, REST API, MAVEN, MySQL, MSSQL, Hibernate, JPA, AWS SDK JAVA, AWS Lambda for Binary Deployment, AWS API Gateway, AWS Cognito, AWS S3, AWS Dynamo DB, AWS Open Search, AWS SQS, AWS SNS, JIRA, Confluence, Git Lab

Technical Team Lead

VFI SLK Global Services Private Limited, India | Oct 2019 - May 2021

- Leading a team of 10 developers including two senior developers.
- Requirement Gathering, End-to-End Development, Test Case Preparation, Unit Testing, Integration, KT.
- Written design documentation.
- Involved in code review and CAB meetings. Daily huddle with Client to be in same page of understanding.
- Manage day to day development work to deliver the project as it is planned.
- Team Resource Management for development. Design and solution-based discussion with onsite clients.
- Always adhere to left shift and believe in process.
- Used below Java J2EE technologies for development.

Core Java, Spring boot, JAX-WS Webservice, Drools, MyBatis Persistence Framework, iBatis Persistence Framework, Ant, WebLogic, Clearcase repository etc.

Senior Engineer Software

SLK Software Private Limited, India | Dec 2018 - Oct 2019

- Requirement Gathering, End-to-End Development, Test Case Preparation, Unit Testing, Integration, KT.
- Written design documentation.
- Involved in code review.
- Manage day to day development work to deliver the project as it is planned.
- Used below Java J2EE technologies for development.

Core Java, Spring boot, JAX-WS Webservice, Drools, MyBatis Persistence Framework, iBatis Persistence Framework, Ant, WebLogic, Clearcase repository etc.

Senior Software Developer

Crimson Logic India Pvt Ltd, India | Nov 2017 - Nov 2018

- Requirement Gathering, End-to-End Development, Test Case Preparation, Unit Testing, Integration, KT.
- Written design documentation.
- Involved in code review.
- Manage day to day development work to deliver the project as it is planned.
- Project building and deployment.
- Developed databases, programs and processes for integration and implementation across enterprise.
- Trained new developers and programmers on company standards for design and review.
- Met with stakeholders to provide detailed project reports and milestone updates.
- Discussed project progress with customers, collected feedback on different stages and directly addressed concerns.
- Used below Java J2EE technologies for development.

Java Script, JQuery, Ajax, CSS, JSP, Servlet, Core Java, JAX-WS Webservice, Maven, Oracle, Ant, WebLogic, GIT repository etc.

Software Developer

iTech Workshop Private Limited, India | Jan 2016 - Nov 2017

- Requirement Gathering, End-to End Development, Unit Testing, KT.
- Worked on writing Design documentation.
- Involved in coding and code review.
- Manage day to day development work to deliver the project as it is planned.
- Closely worked with QA team on testing and writing test cases.
- Project building and deployment.
- Research on HL7 and understood the structure in medical claim.
- Used below Java J2EE technologies for development.

Java Script, JQuery, Ajax, CSS, JSP, Servlet, Core Java, Maven, PostgreSQL, MAVEN, JBoss, GIT repository etc.

Associate Software Engineer

Sobeit Technology Private Limited, India | Jul 2013 - Jan 2016

- Development/Unit Testing.
- Working as a team member after understanding the business requirements.
- Involved in front end UI development using java script & JQuery.
- Contributed technical learnings to developed the transfer management system to send bulk data & contract management for the daily capacity values.
- Used below Frontend technologies for development.

Java Script, JQuery, Ajax, CSS, JSP, Oracle
