Hamirpur, Himachal Pradesh

EDUCATION

Career Point University, Hamirpur (H.P.) — Degree 2019 - 2022

Completed my B.tech. in civil engineering in 2022.

I have a CGPA of 7.62 in my B. Tech
HPTSB, Dharamshala— Diploma 2010-2013

Completed 3 years diploma in civil engineering from HPTSB.

PROFILE

My experience as a structural designer and site engineer has equipped me with the knowledge, skills, and abilities needed to excel in this field. I am confident that I can contribute to any project team and deliver successful outcomes.

WORK EXPERIENCE

JUNIOR STRUCTURE ENGINEER

Er. Pankaj Nanda Structural Consultancy

AUG. 2022 – Present(Full time)

Oct2021-July2022 (Remote)

As a structural designer, I bring a wealth of experience to the table, including my proficiency in software tools such as STAAD Pro. I have worked on various commercial and residential projects, where I have demonstrated my ability to design and estimate steel, concrete, and other civil items with precision and accuracy.

Key responsibilities:

Working extensively with STAAD Pro software to create accurate and efficient structural designs. Preparing detailed estimates for steel, concrete, and other civil works to ensure that projects are cost-effective and completed within budget. Inspecting site works to ensure that all construction is completed to the required standards and meets safety regulations. Preparing detailed and comprehensive working structural drawings that incorporate all necessary details and specifications. Interacting with clients to ensure that their requirements are met and that projects are completed to their satisfaction.

- Staad pro
- Etabs
- Autodesk Revit
- Estimation
- MS Excel MS Word

- **Soft Skill**

- Fast Learner
- Decision making
- Communication
- Multi-tasking

SITE ENGINEER

Er.Surinder Dewan(Govt. Contractor)

AUG. 2013 – MAR. 2017

My expertise in site engineering has given me a deep understanding of the practical aspects of construction projects. I have spent more than three years as a site engineer, gaining valuable insights into the real-world challenges of project implementation. This experience has equipped me with the skills to analyze complex structural designs, identify potential issues, and create efficient and cost-effective solutions. I am known for my attention to detail and my ability to work collaboratively with colleagues, contractors, and clients. I believe that clear communication and teamwork are essential to the success of any project. I take pride in delivering high-quality work that meets and exceeds my clients' expectations.

Key responsibilities:

Interpretation of drawings.

Preparing of bar bending schedule.

Allotting work to labors Supervision of construction work.

Checking Steel work of slab ,beams & columns before concrete casting.

Internships

Divine Consultant Solan, (H.P)

July.2021 - Sep. 2021

During my internship, I gained valuable experience in preparing and finalizing technical drawings, with a focus on creating both structural and architectural drawings. Under the guidance of experienced professionals, I honed my skills in drafting and design, learning how to create accurate and comprehensive drawings that met all necessary technical requirements. Throughout my internship, I had the opportunity to work on a range of projects, from small-scale residential buildings to large commercial structures. Overall, my internship provided me with a solid foundation in technical drawing, allowing me to prepare and finalize accurate and comprehensive technical drawings for a range of projects. My experience using drafting software tools and attention to detail make me a valuable asset to any project team
