## EXPERIENCE

### Tata Consultancy Services

(2014 –2023)

#### PHP Symfony Developer (Project: Arval UK Ltd - MTR) (Mumbai, India)

(OCT, 2020 – DEC, 2023)

- Responsible for addressing high-priority bugs/issues and developing new features to enhance application functionality based on user stories.
- Enhanced Webservice API to automatically audit incoming API calls. Achieved a 95% reduction in the effort required to code the auditing of new APIs.
- Integrated Single Sign-On (SSO) authentication using lightsaml.
- Worked on Symfony migration from version 2.7 to 4.4.
- Developed a loader to integrate new vehicle data into the system which reduced the manual effort by 80% for business. Recognized with “Contextual Master Award”.
- Optimized back-end queries of slow-running jobs, thereby improving the application's performance by 80%. Recognized with “On the Spot Award”.
- Proposed JIRA templates for bug reporting and Change Request, which improved the overall efficiency in the delivery for each user request by 30%.

- Conducted functional and technical training for new developers, managed account creation and local code setup, etc.
- Skills: PHP, MySQL, Symfony, Twig, HTML, CSS, Javascript, Bootstrap, Jenkins, XAMPP, GIT, Bitbucket, JIRA, MySQL Workbench, PhpStorm, Eclipse

#### **Java Spring Developer (Project: Arval UK Ltd-DRIVE)**

**(Onsite – Paris, France)**

*(JULY, 2018 – SEPT, 2020)*

**(Offshore – Mumbai, India)**

*(MAY 2017–JUNE, 2018)*

- Utilized Scrum Agile Methodology - worked on User Stories, developing new functionalities based on User Requirements and enhance application features.
- Built a jar file, leveraging the knowledge of a newly onboarded Spring Boot application, to automatically create the code files for new web pages thereby achieving a 40% reduction in overall development time.
- Enhanced the performance of the 'vehicle search engine' job, reducing the processing time from 4 hours to 20 minutes.
- Received “On the Spot Award” and an appreciation note from the Arval UK IT Director for demonstrating exceptional commitment and taking 100% ownership of issues faced by the UK business.
- Recognized with “Star of the Month Award” for the quality delivery of White label project, earning widespread appreciation from the client.
- Assisted the Solution Delivery Manager in conducting daily team stand-up calls, managing workloads, and tracking ticket progress.
- Provided support to developers in meeting targets and overcoming challenges.
- Skills: Java, Spring MVC, Spring boot, HTML, CSS, Bootstrap, Javascript, JDeveloper, Oracle SQL, GIT, Bitbucket, JIRA

#### **Java Spring Developer (Project: GE Commercial Finance) (Mumbai)**

*(JAN 2014 – APRIL, 2017)*

- Conducted comprehensive morning audits, producing detailed application status reports and addressing top-priority issues, achieving seamless start-of-day operations and reducing urgent support tickets by 20%.
- Earned 4 times “On the Spot Award” for proactive problem-solving, quick resolution of PROD issues, and timely delivery of enhancements.
- Received “Reward and Recognition” from the client for enhancing the application UI.
- Managed internal compliance for the project - raising of Software addendums, Asset Management, onboarding of associates.
- Awarded with “ILP Kudos” for being the top performer in the TCS Initial Learning Program (ILP).
- Skills: Java, Spring MVC, HTML, CSS, Bootstrap, Javascript, Oracle SQL, Eclipse, Apache, Maven
