WORK EXPERIENCE

Security Analyst

PwC India

02/2022 - Present

Tasks

- Experience in monitoring, detecting, and mitigating security incidents within complex network environments.
- Served as a single point of contact (SPOC) for efficient communication while managing multiple clients and handling security incidents.
- Led and supervised a team of fifteen SOC analysts ensuring efficient operations.
- Investigated escalated alerts, ensuring no investigation details were missing.
- Contributed in creating and updating standard operating procedures (SOPs).
- Proficient in utilizing SIEM (Security Information and Event Management) tools and other security technologies to identify and respond to potential threats. Adept at analyzing network traffic, conducting in-depth investigations, and providing actionable recommendations to enhance security posture.
- Performed health monitoring and checks for SIEM components and indulged in use case creation and fine tuning along with report and dashboard creation. Aligning with engineering team to work on the requirements.
- Automating use cases using Logic Apps
- Prepared and presented comprehensive weekly and monthly security reports to clients.

Technical Support Engineer (Azure Networking)

Mindtree Ltd.

07/2019 - 02/2022

Tasks:

- Assisting clients in deploying and troubleshooting ExpressRoute, Virtual Networks, Network security groups, VNET peering, route tables, Firewalls, etc
- Replicating customer's Azure environment in azure lab, where deep understanding of their network architecture is required which helps in finding root cause of the issue and suggesting improvements to customers to enhance the security, performance and efficiency of their setup.
- Escalating the issue to product team in case their intervention is required in providing root cause analysis of the issue
- Engaging with product vendor while assisting customers with their third party products which they deployed in Azure
