

Abhishek Sharma

OBJECTIVE

To work with the IT experts and learn about new emerging technology, market trends.

WORKING AT  AS SOFTWARE DEVELOPMENT ANALYST (8.8 YEARS EXPERIENCE).

(Project: ACH Distributed Applications)

ACH distributed apps provide the PEP+ MAINFRAME users to extract various information required by using the distributed apps as an intermediate. There are mainly 4 distributed apps in FRMS :-

1.>PEP + Direct

- SOAP REST Webservice Architecture based application using the Spring Boot, WSO2 API manager to interact with the PEP+ database operations. Each operation has its own API to consume and utilize. Contains various functionalities such as OAuth , File status tracker, etc.

-

2.>PEP + Exchange

- UI version of Direct, which has Spring MVC architecture implemented for a better client experience. Contains various functionalities such as EPA, Control Totals, Activity Schedulers, Voice Recognition, etc .

3.>Anti Money Laundering Adaptor – AML Adaptor

- Utilizes the Webservice, hibernate and spring both to detect the malicious transactions , which are further directed to the FCRM(Financial Crime Risk Manager) for the final decision.

4.>Commonview

- Detail implementation of Exchange database for very specific records and huge database analysis/searches. Implements the basic java concepts.

-

Role & Responsibility:-

- Cyber Security expertise on Fortify, Sonatype, DAST, Pentest etc.
- Technology upgrades for products (Spring , Maven integration)
- Delivering Patch fix, Major releases.
- Working simultaneously on different products containing different technology stacks.
- Awarded 2 Level 3 Living proof award.
- Working as Backup ISO Coordinator for FRMS Division.
- Member of FRMS Associate Engagement Committee.

Technical Environment : JAVA ,Spring MVC, Hibernate, JQuery , JSP , Javascript , HTML , XML ,Hibernate, SQL , DB2 , Apache Maven , Apache Tomcat, Websphere, Fortify, Sonatype, Weblogic, Jenkins, Linux, Microservices , etc.
