

AISHWARYA

ANGULAR DEVELOPER

CAREER GOALS

Experienced Angular Developer with 4 years' hands-on experience. Passionate about crafting efficient, user-centric web apps. Seeking to contribute to innovative projects, exceed client expectations, and collaborate with dynamic teams.

SKILL SET

- ▶ Angular
- ▶ JavaScript
- ▶ HTML5
- ▶ CSS3
- ▶ Angular.js
- ▶ RESTful API
- ▶ Git
- ▶ RxJS
- ▶ NgRx
- ▶ WCAG
- ▶ Node.js
- ▶ Webpack

PROJECTS

- Project** : 02
- Client** : N Brown Group
- Duration** : Nov 2022 - Present
- Domain** : E-Commerce

Synopsis

Developed a dynamic e-commerce website using Angular for N Brown Group plc, a leading online retailer catering to underserved customer groups in Manchester, England. Leveraged Angular's robust framework to create a seamless and responsive platform for selling clothing, footwear, and homewares.

SUMMATION

Adiel Technologies Private Limited, Chennai

Mar 2020 - Present

- Having **4 years** experienced as a Angular Developer adept at crafting responsive web applications with a keen eye on performance and compatibility.
- Collaborated closely with UI/UX designers to translate designs into flawless Angular components using HTML5, CSS3, and JavaScript.
- Integrated RESTful APIs seamlessly for efficient data exchange between front-end and back-end systems.
- Employed NgRx for robust state management, enhancing maintainability and scalability.
- Leveraged RxJS for asynchronous operations, ensuring efficient data stream management.
- Committed to accessibility standards, adhering to WCAG guidelines and implementing features for users with disabilities.
- Proficient in Node.js for server-side logic and Git for version control.
- Optimized application performance using Webpack bundler and actively participated in Agile development cycles.
- Dedicated to mentorship, providing guidance to junior developers on best practices and Angular development techniques.

Duties of Project

- Angular Developer proficient in Angular, RxJS, NgRx, JavaScript, HTML5, and CSS3.
- Experienced in building responsive e-commerce sites, integrating RESTful APIs, ensuring WCAG compliance, and collaborating with designers and back-end developers within the Angular ecosystem.
- Skilled in Git for source control, troubleshooting Angular functionalities, managing asynchronous data streams, and implementing animations using Angular's built-in features and libraries.
- Familiar with Node.js, npm, Webpack, and server-side rendering within Angular applications.
- Strong team player with a focus on writing clean, efficient code and ensuring cross-browser compatibility within Angular projects.

Project : 01
Client : Transun
Duration : Mar 2020 - Oct 2022
Domain : Travel and Tourism

Synopsis

As an Angular Developer at Transun, I spearheaded the development of a comprehensive tour booking platform aimed at enhancing user experience and streamlining booking processes for customers. The project involved collaborating closely with cross-functional teams including UI/UX designers, backend developers, and project managers to ensure seamless integration of features and functionalities.

Duties of Project

- Utilized Angular framework to develop interactive and dynamic frontend components, ensuring a smooth and intuitive user interface.
- Implemented responsive design principles to ensure optimal performance across various devices and screen sizes.
- Using Angular's built-in HTTP client module to communicate with backend APIs and fetch data asynchronously.
- Integrated third-party APIs for functionalities such as payment gateways, location services, and real-time availability of tour packages.
- Developed responsive, scalable, and dynamic web applications using Angular.js framework.
- Ensured secure communication and data exchange between frontend and backend systems.
- Utilized Angular Router for managing navigation and implementing routing logic within the application.
- Developed an admin dashboard for content management, allowing administrators to update tour packages, pricing, and promotional offers dynamically without the need for code changes.
- Employed techniques such as lazy loading, code splitting, and caching to optimize frontend performance and minimize load times, enhancing the overall user experience.
- Conducted thorough testing across multiple browsers and devices to ensure cross-browser compatibility and consistent rendering of the application.
- Proactively identified and resolved frontend bugs and issues through thorough debugging and testing. Implemented ongoing maintenance and updates to address evolving user needs and technological advancements.

DECLARATION

I hereby declare that all the above details are true to the best of my knowledge.

Aishwarya
