Experience

Trellissoft

Junior UI/UX Designer & UI Developer

Feb 2022 to Current

Goa

I have worked in Trellissoft as a UI/UX designer as well as a UI developer. I was part of projects like **Fintech** and **Management Software UI** Development.

- Designed the UI for applications in **Figma** and **Photoshop**. Conducted user research and usability testing to inform design decisions and improve user experience.
- Developed wireframes, prototypes and high-fidelity designs using Figma.
- Developed responsive and adaptive UI for projects using Angular Material UI, Bootstrap, SCSS and React-strap.
- Maintained existing UI designs by identifying and correcting UI defects. Debugged and fixed UI issues with the Application.
- Collaborated closely with project manager, developer, and other team members to complete task efficiently and effectively.

S.S Technologies (Internship)

UI/UX Designer

7/2021 to 7/2022

Goa

The project is to design a Dental Android Application that allow users to self-register, access information about the Dental Clinic.

- Designed the Application using Adobe xD and designed Ads and festive banner using Canva. Created wireframes, mock-up's and prototyping to visualize and communicate design concept.
- Developed wireframes, prototypes and high-fidelity designs using Figma.

Freelancing Project

The project is to design application which will be used for all-in-one solution for user seeking healthcare service.

- Designed the application using Figma. Created wireframes, mock-up's and prototyping to visualize and communicate design concept.
- Handle client communication and maintain good working relationship with client.
