

Akhil M

Mobile No: +91 9441997646

E-mail: akhil.madarapaku@gmail.com

Professional Summary:

- Having 4+ years of experience in all aspects of Development on **Java, J2EE** based system and 1 year of experience in **FileNet P8**.
- Extensive knowledge on **Java** concepts and its **JSE API**.
- Expertise in having very good implementation knowledge of **OOPs** concepts.
- Hands on experience in **frameworks** like **Hibernate** and **Spring**.
- Well experienced in Spring framework (**AOP, Spring MVC, Spring Transaction, Spring Boot**)
- 4+ years of experience in developing projects with **Spring boot and Microservices**.
- Hands on experience in using **Eclipse, STS, Visual studio code** as IDE's for developing software applications.
- Good Implementation Knowledge in **Design Patterns** like **Singleton, Cache, Factory, Service Locator**
- Extensive working experience in **Oracle, DB2** Database.
- Experience in **MVC** (Model View Controller) architecture, using Spring Frameworks with various Java/J2EE design patterns.
- Experience in **IBM FileNet 5.1, IBM Case Manager, WebSphere 7.1**

Work Experience

- Working as Consultant B2 in Capgemini from June 2022 – Feb 2024
- Worked as Software Engineer in IBM India Pvt Ltd from Jan 2018 to May 2022

Academic Qualifications:

B-Tech in Computer Science and Engineering in JNTUA Anantapur.

Summary of Technical Skills:

Languages	
Programming Languages	Java
Markup Languages	XML, HTML, CSS
Scripting Languages	Java Script

Communication Data Formats	JSON
Frameworks	
Web App Frameworks	J2EE, JSP, Spring, Spring Batch, Spring boot with Microservices, Angular 7
ORM Frameworks	JPA, Hibernate
Development Tools	
Web Server Technologies	WAS 7, WAS 8.5, Apache Tomcat 7.0
IDE	RAD, Eclipse Series, Spring tool suit,
Revision Control	RTC, GitHub, SVN
Databases	DB2, MSSQL 2012, MYSQL 5.2.38

PROJECT-1 (Capgemini)

Project Name and Duration	Details
MUFG – Union Bank (June 2022 – Feb 2024)	<p><u>Project Description:</u></p> <p>Developing Applications with IBM FileNet P8 APIs.</p> <p>IBM FileNet Content Manager is a flexible, full-featured content management solution that provides the foundation for IBM Cloud Pak for Business Automation. It uses AI to deliver deep insights from your unstructured content. Use it to create innovative business applications on any cloud and more effectively manage all your content, from any source.</p> <p><u>Technology:</u> IBM FileNet 5.1, IBM Case Manager, Java, J2EE, WebSphere 7.1</p> <p><u>Responsibilities:</u></p> <ul style="list-style-type: none"> Designed and implemented business solutions on P8 platform using IBM Case Manager. User and customer support. Design and development of workflow modules for the archival system. O2shore: Application Production Support (APS) Finding user issues and resolving them

PROJECT-1 (IBM India Pvt. Ltd.)

Project Name and Duration	Details
UWP - Underwriting Portal (November	<p><u>Project Description:</u></p> <p>The application demanded a Highly Generic and Futuristic Design. It deals with multiple business processes from logging Submissions until quote issuance which includes document management as well. The system also integrates with downstream policy registration systems, Rating engines and document management systems.</p>

2015 –January 2020)	<p><u>Technology:</u> Java EE, Spring JPA, Spring Batch, DB2, SqlServer, Java Webservices</p> <p><u>Responsibilities:</u></p> <ul style="list-style-type: none"> • Understanding the technical & functional specifications • Analyze the Requirements received from the client and developing the same. • Design, development, testing, troubleshooting, and debugging of the application. • Performed unit testing and provided UAT support. • Involved in querying the database using Stored Procedures • Involved in Docgen release activities
------------------------	---

Project -2 (IBM India Pvt. Ltd.)

Template Management System (June 2020 – December 2020)	<p><u>Project Description:</u> The Template Management System (TMS) is a GDC application that allows users Policy drafters to create or amend existing templates (created through the tool) that use xPressions & xPresso (as the design tool) & upload directly to production. This Application will have capability to provide features such as access and authority control, advanced search, manage document versions, mapping documents with UW Platform products, advanced and UW Platform integrated search and preview. It's User-friendly data fields naming, and structure will be applied for Policy Drafters to use data fields without major training.</p> <p><u>Technology used:</u> Angular, Spring boot, MySql</p> <p><u>Responsibilities:</u></p> <ul style="list-style-type: none"> • Performed Integration changes in Docgen • Performed unit testing and provided UAT support. • Worked on Release activities till production deployment.
