EXPERIENCE

Software Developer | Amdocs Development Centre India Pvt Ltd, Pune

(2022-05-Present)

- Developed java code to authenticate client application to third party interface.
- Developed Rest APIs using SpringBoot framework and documented them using Swagger for clear and concise API documentation.
- Worked in microservice architecture using technologies like Docker, Kubernetes and Apache Kafka.
- Implemented automated testing using JUnit and Mockito reducing number of major and critical defects by 60% and improving code quality.
- Developed and maintained codebase according to business requirements. Conducted code reviews to ensure code quality, adherence to coding standards and knowledge sharing among team members.
- Basic knowledge of linux commands.

Systems Engineer | Tata Consultancy Services, Nagpur

(2019-07 - 2021-12)

- Designed and implemented stored procedures in Azure Cosmos DB to perform batch insertion and deletion of multiple documents efficiently optimizing data manipulation operations.
- Led the development (Java & Springboot) and deployment of new features and enhancements following agile methodologies adhering to strict deadlines.
- Conducted thorough testing in lower environments including unit and regression testing to validate code changes.
- Identified and resolved critical production issues, ensuring minimal downtime and maintaining high system availability for end users.

CERTIFICATIONS

AZ-204 Microsoft Certified: Azure Developer Associate
(2023-07)

SKILLS

- Java
- SpringBoot
- Spring
- MYSQL
- Oracle
- PostgreSQL
- Azure Cosmos DB
- Docker
- Kubernetes
- Azure

EDUCATION

- Bachelor of Engineering: Computer Science | CSVTU-Bhilai
CGPA: 8.94 | (2019-05)
- XII (CBSE) | Oriental Public School, Ambikapur C.G
81.8% | (2014-05)

LANGUAGES

- English
- Hindi

ACHIEVEMENTS

- Cleared GATE Computer Science.
Score: 512
AIR: 2799
