

# Angeline Raja

## DEVELOPMENT ENGINEER

Results-driven and seasoned Full Stack Developer and Project Lead with extensive experience in cross-functional collaboration, performance optimization, and cost-saving initiatives. Recognized for enhancing efficiency and achieving substantial cost savings through innovative problem-solving and strategic planning. Demonstrates strong leadership skills and a commitment to continuous learning and professional development.

## SKILLS

- Java, Javascript, C#.net, React (Intermediate), Redux
- Eclipse, Visual Studio, VS Code
- MySQL, Oracle, SQL/PLSQL, SQL Server
- Git, NPM, Vite
- CSS3, HTML5

## EXPERIENCE

### Development Engineer/Full Stack Engineer

**Golden Key Entertainment** Jan 2023 - Present

- Facilitated a cross-functional team in adopting Javascript for front-end development, reducing runtime errors observed in production by 50%.
- Identified and resolved performance bottlenecks in existing applications, resulting in a 30% improvement in response times and overall system efficiency.
- Developed a dynamic form generation library in React, elevating form creation efficiency by 50% and reducing developer effort.
- Pioneered the implementation of a progressive web app using React, leading to a 30% increase in user retention for low-bandwidth scenarios.
- Optimized application performance, achieving 30% reduction in load times by introducing lazy-loading techniques, significantly improving user retention metrics.

### Full Stack Engineer

**Olive International** Jan 2016 - Dec 2018

- Developed and generated comprehensive system reports on service details, slashing service request resolution time from several days to mere hours, resulting in increased customer satisfaction and improved operational efficiency by 60%.
- Revitalized a legacy application by leading a strategic migration to React, resulting in enhanced maintainability and a 35% increase in application speed.
- Orchestrated the creation of 200 visually captivating social media posters as a Digital Media Specialist, resulting in a remarkable 50% sales boost compared to previous years.
- Designed visually captivating posters and marketing collateral that effectively communicated brand messaging and product benefits.

### I.T Analyst(Full Stack Developer & Engineer)

**Tata Consultancy Services** Jul 2005 - Feb 2011

- Leveraged onsite experience in the United States to collaborate effectively with cross-functional teams and stakeholders in health care, ensuring project success and client satisfaction.
- Engineered and architected a cutting-edge application to streamline data integration for Oracle databases, optimizing collaboration between .NET and Java developers
- Engineered innovative solutions for enterprise software architects and TCS clients, aligning with engineering parameters; solutions resulted in a 25% reduction in project timeline and a 15% increase in client satisfaction.

- Mentored junior developers, conducting code reviews and improving guidance or best practices, resulting in a 20% increase in teams overall coding standards.
- Organized and administered online quizzes and contests open to all TCS employees within the Merrill Lynch division.

## EDUCATION

---

**Full Stack Engineering (MERN), DSA, LLD, HLD,**

**SCALER** *Feb 2023 - Present*

**M.Sc.Software Engineering**

**Coimbatore Institute of Technology** *Jul 2000 - Aug 2005*

## CERTIFICATION

---

**Data Structures and Algorithms, LLD, HLD, Full Stack(MERN)**

**SCALER** *2024-08-06*

Practical training in JAVA , DSA, LLD,HLD, Full Stack development(MERN)

## ACHIEVEMENTS

---

- Successfully solved over 500 + Data Structures and Algorithms (DSA) problems, demonstrating a strong understanding of fundamental computer science concepts and problem-solving skills.
- Achieved appreciation badge from Scaler for the extraordinary learning journey with SCALER and for being one among TOP 5% of learners at SCALER.
- Received "On the Spot" and "Gem of the month" awards for exhibiting excellence in projects.
- Received appreciation form clients for conducting a project demo session for the clients client as well in Indianapolis, U.S.
