03/2022-Present
Hoffensoft Cloud Solutions | Coimbatore
FULL STACK DEVELOPER

TRUCKBEE : Developed a Vehicle transportation application aimed at providing a seamless transport experience for user transporting their vehicle from one place to another place. The app featured GPS tracking, Payment and admin dashboard for initiating and receiving calls, as well as handling call routing and booking management. Developed front end using react and backend using Nodejs, MySql.

CMS : Developed, and implemented a custom Content Management System (CMS) tailored for editing mobile app configuration files and managing image assets. Developed intuitive UI using React js and integrated with backend functionality for editing the configuration files.

Siruthuli : Contributed to an NGO application project that involved the migration of data from Salesforce to a MySQL database using java Spring Boot. Developed a user-friendly front-end interface with AngularJS for seamless user interaction and data management.

07/2021 - 11/2021
Capgemini India | Chennai
ASSOCIATE CONSULTANT

During my bench period, I actively engaged in continuous learning and skill development to further enhance my expertise in software development. While not assigned to specific projects, I dedicated significant time to self-directed learning initiatives aimed at mastering new technologies and expanding my knowledge base.

11/2018 - 12/2019
Cube45 eCommerce Services | Chennai
WEB DESIGNER

Developed responsive and user-friendly front-end interfaces for service providing websites, focusing on enhancing user experience and accessibility. Utilized best practices in front-end development including code optimization, cross-browser compatibility, and performance tuning to deliver fast and seamless web experiences. Stayed updated with the latest trends and advancements in front-end development, actively contributing to the adoption of new tools and techniques within the team.

12/2017 - 6/2018
Mymoon Softwares | Nagercoil
SOFTWARE DEVELOPER INTERN

I worked on a project to develop a cross-platform mobile app using React Native for the front-end and Firebase for the back-end. The aim was to create a user-friendly application with real-time functionality, supporting both iOS and Android devices. The project resulted in a successful mobile app that offered native-like performance and real-time features.
