OBJECTIVE

Seeking challenging and growth-oriented opportunities in the field of Product Designing of Automotive Product which provides me a platform to apply my operational and technical skill under the guidance of my seniors of the organization that offers professional growth.

KEY SKILLS

Design Software: Working experience of Solid, Surface and Part modelling on SIEMENS NX.
3D Modeling: Design of Plastic (Surface), Solid Parts as per concept and Requirements.
Manufacturing skill: Working experience on CNC/VMC machining processes During Industrial Training
Computer skill: good knowledge of Windows OS and MS-Office,

CURRENT POSITION: - SENIOR DESIGN ENGINEER

ONWARD TECHNOLOGY PVT LTD; Pune

ONSITE-MERCEDES BENZ RESEARCH AND DEVELOPMENT INDIA, PUNE, APRIL: 2022-TILL DATE

Roles & Responsibility: -

- Design of **Plastic Parts** and **Products** in **SIEMENS NX** environment.
- Concept Design and Detail Design.
- Requirement Study and Analysis.
- Creating B-side features as per requirement.
- Identifying problem in parts and molding conditions and prepares proposals to resolve them.
- Discuss with Project Lead or Manager and other team members about concept and problems.
- With use of input surfaces creating closed body.
- Remove interference from assembly.

Product Responsibility: -

Automotive exterior parts like TAIL GATE, CABIN.

CURRENT POSITION: - SENIOR DESIGN ENGINEER

APPL GLOBAL INFO TECH PVT LTD.; Pune

ONSITE-MARUTI SUZUKI LTD, GURGAON PLANT. APRIL: 2019-APRIL-2022

Roles & Responsibility: -

- Design of **Plastic Parts** and **Products** in **SIEMENS NX** environment.
- Concept Design and Detail Design.
- Requirement Study and Analysis.
- Creating B-side features as per requirement.
- Identifying problem in parts and molding conditions and prepares proposals to resolve them.
- Discuss with Project Lead or Manager and other team members about concept and problems.
- With use of input surfaces creating closed body.
- Remove interference from assembly.

Product Responsibility: -

Automotive exterior parts like front bumper and rear bumper.

CURRENT POSITION: - SENIOR DESIGN ENGINEER

Finite 4.; Pune

OCT: 2018-APR 2019

Roles & Responsibility: -

- Design of **Plastic Parts** and **Products** in **SIEMENS NX** environment.
- Concept Design and Detail Design.
- Requirement Study and Analysis.
- Creating B-side features as per requirement.
- Identifying problem in parts and molding conditions and prepares proposals to resolve them.
- Discuss with Project Lead or Manager and other team members about concept and problems.
- With use of input surfaces creating closed body.
- Remove interference from assembly.

Product Responsibility: -

Automotive INTERIOR SEATINS PART like Rear bezel, Front bezel, Horn bezel, Back panel for GM, TATA, FIAT, MARUTI.

PREVIOUS EXPERIENCES: - DESIGN ENGINEER**Knowledge Podium Systems Pvt. Ltd. Pune****01 Aug 2016 To 30 Sept. 2018****Roles & Responsibility: -**

- Design of **Plastic Parts** and **Products** in **SIEMENS NX** environment.
- Identifying problem in parts and molding conditions and prepares proposals to resolve them.
- Discuss with Project Manager other engineers in the team about concept and problem.

Product Responsibility: -

- **Interior Automotive Parts: - ARM REST, MAP POCKET (Door trim).**

KUMAR SOLUTIONS, Pune**Sept 2015 To Jul 2016****Roles & Responsibility: -**

- Design of Automotive **Plastic** and **Sheet metal** parts in **SIEMENS NX** environment.
- Creating 'B' Side feature like Rib, Bosses, Clip Tower, Dog House etc.
- Identifying problem and Proposed possible design solutions to resolve them.

Product Responsibility: -

- **Automotive Interior: - Central Console, Instrumental Panel (Upper Dash Board).**
- **Sheet Metal: - Small components like door panels and cabins boxes.**

EDUCATION

- **B. Tech. Mechanical** (2011) from GIMT; NEWDELHI (Autonomous) with 71%
- **Intermediate** (2004) from Jharkhand Board with 52%.
- **Matriculation** (2002) Jharkhand Board with 57%.
