

# RESUME

**Name:** AmitaMohan Thube

**Contact No:** 8369879927

**Email id:** [amita.thube1996@gmail.com](mailto:amita.thube1996@gmail.com)

## **Career Objective:**

To have a growth oriented and challenging career, where I can contribute my knowledge and skills to the organization and enhance my experience through continuous learning and teamwork.

## **Educational Qualification:**

### **Graduation: -**

**University/Board:** Mumbai University

**Branch:** Computer Science

**Institute:** Changu Kana Thakur Arts, Commerce and Science College

Semester1	Semester2	Semester3	Semester4	Semester 5	Semester 6
5.40	4.65	4.35	4.75	5.40	4.68

### **Pre-Graduation: -**

Degree	School	University/Board	Year of Passing	Percentage
HSC	S.N.D.T Women's Junior College	State Board	2014	51%
SSC	Swami MuktaNandHigh School	State Board	2012	80%

## **Training & Certifications:**

- Oracle Certified Foundations Associate (OCI)
- Aws cloud course
- Oracle database course

## **Computer /Technical Skills**

- **Operating System:** - Linux / Windows .
- **Data Bases:** - Oracle 11G,12C ,19C, SQL Server, MySQL.
- **Aws Cloud:-** RDS, EC2, S3, IAM, Lambda, CloudWatch etc.

## **Specialization In Oracle Database Administration:**

- Good knowledge of Oracle Architecture
- Installing the Oracle Database / Grid Software (11g,12c,19c)
- Creating an Oracle Database using DBCA and Manually
- Managing the Oracle Instance
- Managing Tablespaces
- Administering User
- Networking
- Performing Backup and Recovery through RMAN
- Data pump using EXPDP / IMPDP
- Configuration of ASM
- ASM Migration
- Database upgradation
- Database Cloning using RMAN
- Managed and maintained multiple MSSQL databases, ensuring optimal performance and high availability.

## **Specialization In MSSQL Database Administration:**

- Installation, configuration, and setup of MSSQL Server instances.
- Database creation, modification, and deletion.
- User and security management (logins, roles, permissions).
- Database maintenance, including backups, restores, and consistency checks.
- Stored procedure, function, trigger, and view creation.
- Indexing strategies (clustered, non-clustered, covering) for optimal data retrieval.
- Query execution plans analysis.
- Identifying and resolving query performance bottlenecks.
- Job Scheduling.
- Importing and exporting data between different sources and destinations.
- Navigating to Activity Monitor within SQL Server Management Studio (SSMS).
- Identifying resource-intensive queries and sessions.
- Performing Backup and restoration.
- Managed Microsoft SQL Server (MSSQL) database replication to achieve high availability and data distribution across multiple instances.

### **Experience:**

- Working with Accenture Dec 2017 to Jan 2020.
- Working with Vidarbha infotech Pvt Ltd. from December 2021 to June 2022 as a **Technical Executive (ORACLE)**.
- Working at Ascent Business Solution Pvt Ltd. Since 22 June 2022 as a **Database Administrator**.

### **Daily Activity:**

- Monitoring and supporting databases & Application in a 24x7 environment.
- As per project requirement configuring Database, DR, Migration to Cloud.
- Maintenance of production database and development database which includes tablespace space management,
- user creation, privileges, roles etc.
- Worked on the resolution of Network related issues like TNS issues and Listener issues.
- Import/Export using Datapump, Database backup monitoring, investigation backup failures & restarting backups.
- Differential and full RMAN backups, standby DR database monitoring & Maintenance of ArchiveLog Gaps at Standby DR.
- Involved in maintain and updating the database documentation
- Refreshing data from production into development and QA environments.
- Resolving tickets related to Database user management, Performance of Database
- Monitored alert log for any database issues
- Troubleshooting Database related issue on cloud
- Database upgradation on cloud
- Working on AWS RDS, AWS EC2, AWS S3
- Oracle database Patching
- Generating monthly audit report for database user activities
- Online ASM Migration, ORACLE Client Installation, various RMAN backup and Recovery Scenarios.
- Writing shell script for scheduling in crontab (backup)
- Configuring maintenance job
- Reviewed and managed scheduled SQL Server Agent jobs, ensuring successful execution of backups and maintenance tasks in sql server..
- Identified and optimized long-running queries to improve overall database performance in ssms.
- Verified the completion of daily backups, including full, differential, and transaction log backups, and ensured proper storage in sql server..
- Reviewed and maintained user accounts and permissions, detecting and preventing unauthorized access in sql server.
- Addressed and resolved blocking and deadlock issues to maintain data integrity and user experience in SQL server.
- Monitored server performance metrics such as CPU usage, memory utilization, and disk I/O activity in sql server.

### **Language's Known:**

English, Marathi, Hindi

**Personal Details:**

**Date of Birth** : - 24 July 1996  
**Gender** : - Female  
**Address** : - W.T. Patil Marg, Near Amar Cinema, Chembur, Mumbai-400071  
**Nationality** : - Indian

**Declaration:**

I Hereby Declare That the Above Information Furnished Is True To The Best Of My Knowledge And Belief.
