SOFTWARE DEVELOPER

Experienced Software Engineer with 3+ years focused on React.js front-end development and 5+ years in JS ecosystem.

Proven in high-quality, performant web apps and interfaces. Expertise in scalable architecture, performance optimization and cross-team collaboration. Skilled in JavaScript, Vue.js, React.js, TypeScript and UI/UX integration. Adept at guiding and mentoring juniors and driving projects. Committed to clean code, best practices and actively exploring new tech for elevated development. **Looking for roles as a frontend engineer in React.js tech stack.**

EXPERIENCE

Software Developer

The Web Fosters

June 2018 – Present

Odisha, India

- Conducted comprehensive codebase refactoring, employing clean coding and best practices
- Translated design mockups into pixel-perfect, responsive user interfaces using ReactJs and VueJs ensuring consistent and intuitive user experiences across devices and browsers. Integrated front-end components with RESTful APIs.
- Provided technical mentorship and guidance to junior developers, enhancing their skills and productivity through regular code reviews and knowledge-sharing sessions.
- Developed Support web app (in Laravel + ReactJs + RTK + Typescript), an internal tool. Implemented key features like ticket, notifications, announcements, user, product, documentation management. Successfully integrated ticket reminders and Telegram bot. Resulted in a 50% increase in Technical Support Executive efficiency by streamlining workflows and reducing time spent.
- Migrated the ReactJs application from Context API to Redux-toolkit, Upgraded React Router from v5 to v6 and implemented code splitting in an app which increased performance of the app by 20%. Made custom hooks for local storage, copy to clipboard, fetching data, debounce and online status which are being used across all UI apps.
- Led end-to-end development of a SAAS Form Generator web app (Laravel+VueJS) used by 3k+ professionals. Implemented advanced features like conditional fields, Quiz, notifications (database+mail), Internationalization (i18n). Integrated tools like webhook, Stripe, Mailchimp, and G-Calendar for enhanced productivity and business growth. Added PWA support for seamless accessibility.
- Built a secure Document Signer Module (Laravel+VueJS) in the Form Generator app, allowing safe and easy digital document signing. Improved data security and simplified document workflows for a user-friendly experience.
- Designed and implemented a powerful workflow automation tool (in VueJS) for forms and documents, incorporating automation elements. Successfully integrated third-party tools like Google Sheets, Calendar, Slack, and Chatwork, optimizing efficiency and collaboration.
- Took ownership and developed project, HRM, and web-maker module in POS (Laravel + Bootstrap) catering to 1k+ small to medium businesses. Successfully delivered a robust solution for enhanced business operations and management.

PROJECTS

Talkible - A Social Media App

JavaScript, ReactJS, ChakraUI, React Router, MockBee

[Source Code](#)

- Developed Talkible a social media application from scratch. Features include user authentication using JWT, user feed, explore page, bookmark post, users follow/unfollow, user profile, edit profile, create/edit/delete post, image upload, light/dark mode, code splitting

Bücher - An Ecommerce App

JavaScript, ReactJS, CSS, React Router, MockBee

[Source Code](#)

- Developed Bucher an e-commerce app for selling books. Features include landing page, products page, cart and wishlist, sorting/searching/filtering products, user profile, address management, place order, Razorpay for a seamless checkout experience and JWT based authentication, code splitting.

TECHNICAL SKILLS

Languages : JavaScript, Typescript, HTML, CSS

Frameworks/tool: React.js, Vue.js, Chakra UI, Redux-toolkit, Unit Testing(Jest, RTL), Webpack, Postman, RESTful APIs

Others : React Router, Material UI, Bootstrap, Php/Laravel, NodeJS, jQuery, VS Code, Git(GitHub), Vercel

EDUCATION

Biju Patnaik University of Technology

Bachelor of Technology in Computer Science and Engineering

Rourkela , Odisha, India

August 2014 – April 2018
