- Design-build and configure applications to meet business process and application requirements.
- Experience in implementing B2C E-Commerce applications.
- Expertise in Hybris e-commerce suite (Backoffice, HMC, HAC, Impex, Flexible search, Data Modeling, Product Modelling) and Hybris Product Content Management (PCM).
- Basic Understanding of the concepts of MVC (Model-View Controller), JDBC (Java Database Connectivity) and RESTful web services.

## Technical Skills

---

**Languages :** Core Java, C++

**Database :** MySQL

**Technologies/Frameworks :** SAP Hybris Commerce, Data Modelling, items.xml, Flexible Search, IMPEX, HMC(Backoffice), HAC, Cronjobs, Business Process, Spring Core, Spring MVC, JDBC, SQL Queries, Junit, Mockito

**Tools :** Eclipse, IntelliJ, JIRA, Splunk, Kibana, Postman, Swagger, Git, GitLab, BitBucket, SonarQube

## Work Experience

---

**Accenture | Software Engineer**

**[July 2021 – Present]**

**Role- SAP Hybris Developer**

Pune, Maharashtra

### Project 3: SAP Hybris Implementation | Bharat Petroleum (BPCL LPG-CEP)

- Developed application and component strategy in line with the business strategy for multiple programs.
- Collaborate with DevOps Team especially with Strategy Analyst , Lead Developer on analyzing business requirements and splitting them in Backlog Items, providing sequence and effort/Story Points estimation
- Hands-On Experience in Java and Spring MVC.
- Worked on Alerts & Notification, Order Management module.
- Worked on OCC Webservices.
- Worked on BPCL Admin portal and handled the end to end order management flow.

### Project 2: SAP Hybris Implementation | Duke Energy Corporation

- Involved in Implementation & integration approach for applications and their components and gathered client requirements.
- Provided primary support for application releases into production, including deployment plan and schedule.
- Engagement in technical design discussions, requirement analysis, coding, testing, implementation, and maintenance of SAP Commerce and associated software applications
- Involved in writing Data Modeling (items.xml) and Cronjob, Impex, flexible search queries.
- Involved in creating new Products in commerce, worked on the enrollment process, work order flow, cart and checkout flow.
- Involved in code review, error checking, and debugging.
- Enhanced code coverage significantly by writing unit test cases using Junit, Mockito.
- Involved in fixing critical sonar issues. Analyzed SonarQube for code quality for complete code base and reported regularly.
- Involved in testing the APIs from Postman and Swagger.
- Supported for Unit and Integration Testing.

### Project 1: B2C Digital Commerce Transform | Shoppers Stop

- SAP Commerce setup, configuration, customization, data Migration, and deployment of applications to SAP Commerce platform.
- Provide technical support and troubleshooting for applications developed using SAP Hybris Commerce.
- Involved in resolving defects/issues.
- Developed and maintained technical documentation related to the application development process.
- Conducted troubleshooting and debugging of system issues, ensuring optimal performance.
- Resolved production issues and performed root cause analysis to prevent future occurrences.

## Certifications & Achievements

---

- AWS Certified Cloud Practitioner.
- Awarded as **Techstar 2024** from Accenture Leadership.

## Education

---

**B.Tech in Computer Science & Engineering [CGPA – 8.13]**

**[July 2017 – July 2021]**

University Institute of Technology, RGPV, Bhopal, Madhya Pradesh
