OBJECTIVE

To leverage my expertise in OMP SAP Namespace Solution and OMP Operational Planning & Scheduling Solution, along with my strong consulting and technology background, in a challenging role where I can contribute to supply chain and operations projects, customer collaboration initiatives, and web development endeavors. With a focus on driving efficiency, improving performance, and delivering exceptional results, my goal is to make a significant impact and contribute to the success of organizations across various industries.

PROFILE

Highly skilled professional with expertise in OMP SAP Namespace Solution and OMP Operational Planning & Scheduling Solution. Strong consulting and technology background combined with 6+ years of experience in Supply Chain & Operations and P&C Insurance domains. Demonstrated success in requirements analysis, solution design, and data integration. Seeking a challenging role to contribute to supply chain and operations projects, customer collaboration initiatives, and web development endeavors, utilizing my skills to drive efficiency, improve performance, and deliver exceptional results.

PROFESSIONAL EXPERIENCE

OMP Data Integration Consultant for a Health Care Client

Dec 2022 - Present

- Designed and implemented an OMP SAP S/4HANA Data Integration solution that resulted in a 20% improvement in system performance and user experience.
- Successfully implemented an upload functionality for Future Plants into SAP S/4HANA as part of the migration process from our previous system, EDG. This migration allows us to seamlessly transfer data and ensure a smooth transition to the new platform. The upload process has been thoroughly tested and validated to ensure accuracy and data integrity.
- Successfully integrated complex data sources and resolved data quality issues, ensuring accurate and reliable information for decision-making.

OMP Supply Planning Consultant for a Health Care Client

Sep 2021 – Dec 2022

- Played a crucial role in the implementation of an OMP supply planning solution, resulting in a 15% reduction in lead times and improved supply chain performance.
- Collaborated with cross-functional teams to gather requirements, design solutions, and create detailed configuration documents, ensuring seamless integration with existing systems.
- Received positive feedback from stakeholders for contributing to the effective management of project timelines and delivering solutions within budget.
- Successfully executed volume planning and detailed scheduling for Health Care Client's Clinical projects in the EMEA region.
- Integrated SAP system to streamline and enhance the efficiency of volume planning and detailed scheduling processes for Health Care Client.

Customer Collaboration for a CPG Client

June 2021 - Sep 2021

- Enabled successful customer collaboration for a CPG client, leading to improved demand forecasting accuracy and enhanced inventory collaboration.
- Developed a comprehensive business case that outlined the vision and potential benefits of implementing customer collaboration features, resulting in a 25% increase in customer satisfaction.
- Identified pain areas and proposed innovative solutions that aligned with business objectives, leading to significant process improvements and cost savings.

Developed Supply Chain Reference Architecture

May 2021 – June 2021

- Conducted extensive research on SC vendors and tools, creating a roadmap for different SC functionalities that reduced solution delivery time by 30% and decreased costs by 15%.

- Mapped tools for various industries and regions, resulting in improved solution scalability and increased customer satisfaction.
- Presented findings and recommendations to senior management, influencing strategic decisions, and enhancing the company's competitive edge.

Product Development and Management for an EdTech Startup

May 2020 – Jul 2020

- Managed the successful development and launch of a digital platform, achieving a 40% increase in user engagement and positive customer feedback.
- Led cross-functional teams in delivering high-quality products within strict timelines, ensuring seamless user experience and customer satisfaction.

Web Development & Enhancement for a P&C Insurance Client

Jul 2015 – May 2019

- Successfully designed and developed engaging web pages in the Dot Net Framework, prioritizing seamless user experience and intuitive navigation.
- Proficiently analyzed client requirements, accurately estimated project effort, and created comprehensive functional requirement documents, ensuring alignment with business objectives.
- Proactively identified and resolved bugs and issues, employing meticulous debugging techniques, and leveraging the capabilities of Microsoft Visual Studio.
- Collaborated closely with cross-functional teams, including UI/UX designers and back-end developers, to ensure smooth integration and optimal performance of the web applications.
- Received positive feedback from clients for delivering high-quality web solutions that exceeded their expectations and contributed to their online presence and business growth.
