---

IT professional having **6+ years'** experience in Banking and Finance Domain. A **Java Full-Stack Developer** passionate about web development with a focus on Backend. I am highly interested in gaining knowledge about best practices and building quality software.

**TECHNICAL SUMMARY:**

**Java Technologies:** Core Java, Advance Java, Spring MVC, Hibernate, JPA, Spring Boot, Microservices, Restful web service, JSP, Servlet.

**Web Technologies:** HTML, Java Script, CSS, jQuery, Ajax, Bootstrap.

**Database:** MySQL, MSSQL, Oracle.

**Tools:** Jenkins, GitHub, SVN, JIRA, Sonar, Postman, Swagger, SQL Developer

**Cloud Platform:** Amazon Web Services

**PROFESSIONAL EXPERIENCE:**

- Java Developer with 6+ years of experience in IT industry comprising mainly of software development.
- Currently working as a java developer with IDBI Intech Ltd.
- Implemented Microservice architecture using Spring Framework.
- Developed and consumed Web Services (REST) to interact with Core Banking System and with other components to develop our project.
- Developed JAVA multithreaded STP services to integrate application with mobile banking, net banking, and sub-member banks.
- Used Spring MVC Framework, spring security, JPA, jQuery, Ajax, JSP, Bootstrap for the development of web application.
- Used GitHub/SVN for the version control.
- Implemented features like paging, logging, 2FA, Encryption, Decryption, Authentication, Authorization, MQ/SFTP integration, XML/JSON Parsing & Generation, ISO Implementation interceptors etc.
- Played key role in the complete SDLC for requirement analysis, designing, development and testing.
- Monitoring of existing applications for resolution of defects, analyzing and solving production related issues within SLA timelines.
- Actively participated in Functional testing, also involved in the preparation of User and System manual.

**WORK EXPERIENCE:**

1. IDBI Intech Ltd. [**Nov-2018 to till date**]
2. Kotak Securities Ltd on the payroll of Questec. [**Sept-2017 to Nov-2018**]

**PROJECT DETAILS:****i@Connect – [NEFT/RTGS] (for IDBI Intech Ltd.)**

**Client:** Equity Bank Nairobi, Bank of China, Oriental Bank of Commerce, J&K Bank, J&K Grameen Bank, IDBI Bank.

**Technologies:** Java 8, Spring Boot/Security, Spring MVC, JPA, Bootstrap, HTML, CSS, JavaScript.

**Description:**

i@Connect is a web-based solution with a Straight Through Processing (STP) capability to process payment requests. It is a middleware connecting Core Banking application with the Payment systems like RTGS, NEFT etc. It avoids duplication of data entry, ensures data integrity, and eliminates any scope for errors of omission and commission.

It helps to process large volumes of transactions in no time, without manual intervention.

**TPA-SHA Module (IFT/NEFT/RTGS)**

**Client:** J&K Bank.

**Technologies:** - Java 8, Spring Boot / Security, JPA.

**Description:**

TPA-SHA contains java services with a Straight Through Processing (STP) capability to process payment requests. It is a middleware which receives encrypted files through SFTP from SHA (State Health Agency) and processes transactions into i@connect after validation.

**iGLS – Integrated Group Lending System (for IDBI Intech Ltd.)**

**Client:** Equity Bank Nairobi.

**Technologies:** Java 8, Spring Boot / Security, Spring MVC, JPA, Bootstrap, HTML, CSS, JavaScript.

**Description:**

iGLS is a secure web application which helps Bank to automate their group lending business, which results in converting calls to profitable customers. It is an integrated solution for Equity Group. It is used for tracking application status right from receipt till logical end. It provides online status availability to any level in the hierarchy. It also has auto E-mail notification.

**REPGEN/EMAILER (for Kotak Securities)**

**Client :** Kotak Securities.

**Technologies :** - Java, SQL Server 2012.

**Description:**

RepGen application is used to generate various types of Reports and based on those reports Back-office team of Kotak securities sends reports to the client or dealer. The reports includes margin statement, Contract Note report, Sebi Payout notes etc.

Once the Report is generated, same entry is inserted into mail header table. And then Emailer application sends mail including reports (Generated from Repgen) to the client/Dealer.

**EDUCATIONAL QUALIFICATION:**

Qualifications	University/Board	Year of Completion	Percentage
Bachelor of Engineering (Computer Science)	University of Mumbai	2016	6.97 CGPI
Diploma (Computer Engineering)	Sahyadri Polytechnic Sawarde, (Maharashtra Board)	2013	61.68%
