SKILLS

PROGRAMMING

- Core Java
- C++

JAVA BACKEND DEVELOPMENT

- Html
- Css
- Java
- Springboot
- Hibernate/JPA
- MongoDB
- Spring Security Module

OTHER SKILL

- TeamCenter
- PLM
- RAC Customization
- ITK Customization
- Configuration of Teamcenter

EDUCATION

GGSIU, New Delhi

M.TECH IN Electronics and Communication Engineering
Dec 2020 - July 2022

GGSIU, New Delhi

EXPERIENCE

DELOITTE USI | Java Developer | Teamcenter Developer

Feb 2021 – Jul 2023

PLM Teamcenter Specialist /

- Established development instances and configured BMIDE according to design documents.
- Customized ITK for change management deployment, including custom action handlers, precondition, and rule handlers using C++.
- Configured workflows to streamline processes and improve efficiency.

Java Developer /

- Developed and maintained Java applications using Spring Framework and Hibernate ORM.
- Implemented Microservices architecture for scalable and modular applications.
- Designed and developed dynamic web pages using JSP, HTML, CSS, and Bootstrap.

SALTORIS | Java Developer

Aug 2023 – Feb 2024 | 5 Month

- Integrated Rest APIs for seamless communication between systems.
- Implemented CSV file validation and upload functionality, ensuring data integrity and security.
- Utilized MongoDB for storing and retrieving application data, optimizing performance and scalability.
- Deployed applications on AWS cloud infrastructure, leveraging services such as EC2 for hosting the application and RDS for managing a MySQL database server.
- Designed and implemented microservices architecture for the application, enhancing scalability and modularity.
- Collaborated with cross-functional teams to design and implement features, ensuring high-quality deliverables.
- Conducted code reviews and provided technical guidance to junior developers, fostering a culture of continuous learning and improvement.
- Created Outh2.0 login and user Registration of first time users and employees.
- Calendar and Holiday Crud features and generated working day roster all automated using Java 8 Time and Date features.
- Worked on AWS cloud

Key Achievements:

- Successfully implemented CSV file validation and upload feature, reducing manual data entry errors by 30%.
- Optimized MongoDB queries, resulting in a 40% improvement in application performance.
- Received recognition for outstanding teamwork and contribution to project success.

PROJECT

PORTFOLIO | JAVA APPLICATION

- Designed a backend Application of Recipe Management
<https://github.com/anuragmishra1539/RecipeManagementwithAws>.
- Unity Game of Endless Runner

<https://github.com/anuragmishra1539/Endless-Runner>.
