November 21 – February 23

- **AR Monitoring:** Application allows business users to record the review and any subsequent actions as part of monitoring authorized representatives
- Application with 2 modules: Business User and Admin User
- Worked on Azure SQL stored procedure for data manipulation, viewing data and Querying data from SQL database
- Worked on bootstrap for user friendly UI

- Used jQuery/JavaScript for client-side scripting and client-side validation
- Used Data Annotation for Server-Side validation
- Worked on Custom Validation

Responsibilities:

- Designed and developed the applications from scratch.
- Deployed source code using CICD pipeline in Azure
- Undertook the task of development, testing, debugging and troubleshooting of application
- Impact Analysis & implementation as per Change Request (CR)
- Bugs Analysis and fixed raised by SME

INFOSYS LTD.

Technology Analyst

Projects:

Technology: ASP.NET

July17 – October 21

- **Workability:** Application used to create Health Insurance Claim after answering few mandatory questions and choosing the type of claim that needs to be generated for a particular client.
- Worked on PL/SQL stored procedure, function for data manipulation, viewing data and querying data from Oracle database.
- Used jQuery for client-side scripting and client-side validation.
- Responsible for performing Unit testing.

Technology: ASP.NETMVC

February17 –May17

- **Drive2Destiny:** A Job portal which enabled registration and login as a Jobseeker, as a Job Provider or as an Admin.
- A job seeker could apply for his/her preferred job.
- A job provider could post job for a jobseeker.
- Admin could manage the site as well as the user.

Responsibilities:

- Designed and coded the application components in an agile environment, took up the responsibility of requirements and delivered them on time
- Responsible to perform Unit testing, appropriate documentation
- Undertook the task of development, testing, debugging and troubleshooting of application
- Wrote Stored Procedures, Joins, function for data manipulation, viewing data and querying
- Interacted with the team members to ensure smooth progress of project work/implementation of the application

EDUCATION QUALIFICATIONS

- B.Tech (Computer Engineering) from Graphic Era Deemed University, Dehradun
- Higher Secondary School Certificate from Saraswati Sr. Sec. School, Haryana
- Senior Secondary School Certificate from M.A.S.D Sr. Sec. School, Haryana

LTIMINDTREE CERTIFICATIONS

- Completion of "Secure Delivery for Web Developers" certification
- Completion of "Secure Delivery for Data" certification
- Completion of "Know your Customer" certification
- Received "Spot-On" Award

INFOSYS CERTIFICATIONS

- Completion of Internship program
- Certified in Agile Methodology

- Received “Insta” Award

EXTRAMURAL ENGAGEMENTS

- Volunteered Participated in Infosys event
- Volunteered in GRAFEST (Annual Fest of GEU)
- Participated in recruitment drive
- Merit in the C-Quiz test in the college level held on 23 April 2015.
