Project Experience:

Project # 1:

- Client : Groupecat
- Duration : November 2021 till date
- Organization : HCL Technologies
- Project : Support
- Role : Senior software Engineer

Project Details: vehicle Transport Management System

Automate processes to plan, procure, execute, track and audit transportation for every shipment. Manage hub-to-hub, hub-to-store, and last mile deliveries all on one platform. Assign, track & manage deliveries across own fleet, market vehicles.

Track progress and manage exceptions in-transit. Collect & confirm delivery success. Track live location and status through SIM, GPS or App-based tracking. Enable dealers & distributors to track all shipments sent to their hub on the merchant portal. Give customers an Uber-like delivery experience with map based location tracking & ETAs. Notify customers at every stage of delivery through E-mail, mobile app.

Project # 2:

- Client : Marktech 3.5
- Duration : May 2019 – November 2021
- Organization : Calpion software technologies
- Project : Support
- Role : Quality Control

Project Details:

Marktech system gives everyone — from sales, customer service, business development, recruiting, marketing, or any other line of business — a better way to manage the external interactions and relationships that drive success. A Marktech lets you store customer and prospect contact information, identify sales opportunities, record service issues, and manage marketing campaigns, all in one central location — and make information about every customer interaction available to anyone at your company who might need it.

With visibility and easy access to data, it's easier to collaborate and increase productivity. Everyone in your company can see how customers have been communicated with, what they've bought, when they last purchased, what they paid, and so much more. Marktech can help companies of all sizes drive business growth, and it can be especially beneficial to a small business, where teams often need to find ways to do more with less.

ACADEMIC QUALIFICATION:

- Bachelor of engineering - K.S. Institute of technology, Bangalore
Graduated with 66% aggregate
