EXPERIENCE

SAP TRM Functional Consultant

Deloitte USI

📅 Dec 2020 – Current

📍 Hyderabad, India

Google

- Preparation of functional specifications, business requirements, testing, and training documents.
- Involved in implementation and support services (L2 & L3) pertaining to SAP FSCM Module for a leading multinational technology giant.
- Responsible for customization of search string configuration and substitution to accommodate requirements related to the local language (LATAM) so as to achieve 100 percent automation in auto-posting/clearing.
- Experienced in working with SAP's Electronic Bank Statement configuration (MT940 and CAMT53) and bank statement processing and post-processing in SAP.
- Responsible for implementing and supporting customized jobs for missing bank statements and following up with banks as needed.
- Worked on SAP's Automatic Payment configuration and SAP's payment processes.
- Experienced with e2e testing of payment files internally and externally with bank partners and the GWIFT team.
- Prepared VBS scripts to automate clean-up activity, payment run (F111 automation), and free-form payment creation.
- Experienced in working on SAP's Bank Communication Management Module.
- Worked on IHC configurations and cash pool extension to corresponding IHC accounts.
- Collaborating with teams like MDG, FinCore, and treasury tech to perform testing related to various processes.
- Responsible for splitting and loading master and delta files consisting of bank keys into the S/4 system.
- Performed regression and smoke testing on various occasions when needed.
- Conducted client-specific training and provided input at technical and functional levels.
- Responsible for creating and maintaining weekly deck and weekly status report presentable directly to the client and other higher management for tracking purposes.
- Worked with the UiPath Automation team to automate the BAM setup (House bank and OT83).

AWARDS AND RECOGNITION

- Received "APPLAUSE AWARD" for reducing the BAM setup backlog through Uipath implementation.
- Received "SPOT AWARD" for standardizing requirement gathering and evidence documentation.
