## WORK EXPERIENCE

### Dataman Computer Systems Pvt. Ltd. (02/2022-07/2024)

I provide solutions to the clients for the issues related to the software functionalities and resolve the issues related to database inconsistencies and other transactional mistakes done by users in order maintain the data integrity and also check for the proper flow of data in the database whenever any new functionality or module is added in our existing software product.

Working Knowledge of Enterprise Resource Planning (ERP) software, ensuring seamless operations and user support and its use in textile market.

Tools used – Visual studio , Crystal reports , Seagate reports , MSSQL , SQLDBX.

## PROJECTS

### Retail Pro (Complete solution for retail textile market)

(02/2022 – 07/2024)

Worked 2 years and still working on its database and checks for the bugs in the software and later created a small database add-on structure for the integration of **Task remainder working** and **Salesman commission working** .

### Vastrapalaya NG (software wholesale textile market)

(02/2022 – 07/2024)

Worked almost 6 months regularly on its functionalities and still check for the issues reported by client So that it can be fixed or can be forwarded to developer side if there is something needs to get fixed in the code.

## ACHIVEMENTS

Hands on in SQL (structured query language) and managing databases over MS SQL server. (02/2022 - Current)

Knowledge of designing Procedures, Functions and Triggers.

## CERTIFICATES

Attended a workshop on cyber security awareness program by AKTU.

Use of Technology in Education. (2018).

MSSQL DBA (2024)
