PROFILE

Highly skilled Full Stack developer with specialization in Java and Spring Boot technologies. Proficient in designing, developing, and maintaining robust and scalable server-side applications using Java and Spring Boot. Deep understanding of AngularJS and Next.js for building responsive front-end applications. Experienced in working with MySQL for efficient database design and optimization. Detail-oriented and meticulous professional dedicated to writing clean and efficient code. Strong expertise in conducting thorough testing to ensure application reliability and security. Collaborative team player, adept at collaborating with cross-functional teams including UX/UI designers and project managers.

Skills:

Programming Languages: **Java, SQL, JavaScript**
Java Frameworks: **Spring Boot, Spring MVC, Hibernate**
Web Technologies: **RESTful APIs, JSON, XML**
Database Technologies: **MySQL, PostgreSQL**
Frontend Development: **React.js, Next.js, Angular**
Backend Development: **Node.js, Spring Boot**
Version Control: **Git, Jira**
Cloud Platforms: **AWS, GCP**
IDEs: **IntelliJ IDEA, Eclipse**
Tools: **Jenkins, Jira, VS Code, NPM**
Agile Development Methodologies
Problem Solving and Analytical Skills
Strong Communication and Collaboration Skills.

Education:

Lovely Professional University, Punjab
B. Tech. (CSE) 2016-2020
Lions School, Mirzapur
Intermediate, 2015.

Work Experience:

Sterlite Technology Limited:

Developer | Pune | January 2022 - Present

- Developed and maintained backend systems for enterprise applications using Java, Spring Boot, and related frameworks.
- Created responsive front-end applications using Next.js and Angular.
- Integrated front-end applications with back-end services.
- Collaborated with cross-functional teams to gather requirements, design solutions, and implement new features.
- Conducted thorough testing, including unit testing and integration testing, to ensure application reliability and stability.
- Collaborated with the QA team to identify and resolve software bugs and issues.
- Optimized application performance to enhance user experience.
- Utilized Git commands for version control and AWS/GCP for deployment.
- Worked under Agile project methodology.

Jnet Technology Private Limited:

Project Engineer | Lucknow | August 2020 – June 2021

- Participated in development of microservices-based web applications using AngularJS and Spring Boot.
- Created RESTful APIs and integrated them with the front-end.
- Deployed application on AWS EC2 using Jenkins for continuous integration.
- Spearheaded on database design and optimization using MySQL.
- Participated in deployment of 4G and LTE networks.

Projects:

myTVS Website:

Frontend Developer | Dec 2022 – Present

- Developed a responsive website using NextJS and Spring Boot for client.
- Implemented RESTful APIs for CRUD operations on inventory data.
- Integrated third-party payment gateway for online transactions.
- Implemented role-based authentication and authorization using Spring Security.
- Integrated email notifications using Java Mail API.

Balco HSM Website:

Full Stack Developer | June 2022 – October 2022

- Developed a responsive website using AngularJS and Spring Boot for client.
- Designed and implemented microservices architecture.
- Deployed website on AWS EC2 and established CI/CD pipeline using Jenkins.
