PROJECT DETAILS

Project 1	
Title	PMO Tools
Company Name	John Deere
Technologies	Java 8, Spring Boot, Spring Data JPA, Angular 12, Postgres SQL.
Team Size	12
Project Description	The PMO Tools project comes under Enterprise Product Delivery Process Domain which consists of 7 applications to seamlessly manage the project journey, with less efforts, higher critical focus and excellent collaborative communication so that product delivery is efficient for the company. It's having fully integrated toolsets that enable process efficiency, effectiveness and reliable project outcomes.
Role and Responsibilities	<ul style="list-style-type: none">• Conduct analysis, implementation, testing and debugging• Conduct root cause analysis for defects and fix it.• Develop, test, implement and maintain application software• Collaborate effectively across team• Create notebook to push db data into data lake and schedule jobs to run on required intervals.• Recommend changes to improve established java application Processes• Worked on data migration with other team members

Project 2	
Title	IHMS
Company Name	Integrin Technologies
Technologies	Java, Spring Boot, Angular 8, Hibernate, Mysql
Team Size	8
Project Description	The Integrin Hospital Management System (IHMS) is software that is designed to handle all the activities of clinic workflow like medical, financial, legal, administrative, healthcare performance. Besides, it also converts all paper works into digital form. It simplifies the work of healthcare professionals and their interactions with their patients. Proper documentation of patient data across various departments is a confidential matter. However, the IHMS automates the management and reduces the paperwork. Thus, it not only reduces the burden on staff but also makes documentation easier.
Role and Responsibilities	<ul style="list-style-type: none">• Conduct software analysis, programming, testing and debugging• Develop, test, implement and maintain application software• Collaborate effectively across teams• Recommend changes to improve established java application Processes
