### CORE COMPETENCIES

- ❖ SAP Implementations and Installations
- ❖ SAP Upgrades and Updates
- ❖ Conversions to S4 Hana
- ❖ Migrations from on-prem to Cloud
- ❖ SAP Support
- ❖ Project Management
- ❖ Technical Leadership
- ❖ System Monitoring
- ❖ Incident Management & Change Management
- ❖ Team Leadership
- ❖ Client & Stakeholder Engagement

### TECHNICAL SKILLS

- ❖ **OS:** Unix, HP/UX, Linux, Windows, & AIX
- ❖ **Database:** HANA, MS SQL, Sybase, DB2, Oracle, & MAXDB

### SOFT SKILLS

- ❖ Collaborator & Communicator
- ❖ Analytical & Negotiator
- ❖ Problem Solving & Team Player
- ❖ Relationship Building

### EDUCATION

- ❖ **B.E.** from RGTU Bhopal in 2012

### CERTIFICATIONS

- ❖ C\_HANATEC141 Certified
- ❖ Azure 120, 900 Certified

### NOTABLE ACCOMPLISHMENTS

- ❖ Customer Delight award in Capgemini.
- ❖ Certificate of appreciation award in T-Systems for implementing HA DR for JG Petro in Philippines.
- ❖ Spot and Applause awards for 2 customers of Deloitte USI Consulting.

### PERSONAL DETAILS

**Date of Birth:** June 30, 1991  
**Languages Known:** English, Hindi  
**Address:** Balewadi Pune

### PROFILE SUMMARY

- ❖ **Seasoned professional with 11 years** of experience in SAP BASIS, SAP HANA, and SAP S/4HANA, with a strong command over SAP Implementations, migration, and upgrades facilitating seamless transitions and operational excellence across diverse industries.
- ❖ Proven **SAP Consultant** spearheading implementation projects and delivering transformative consulting services. Accomplished Greenfield **project implementations in Budapest & Slovakia**, showcasing adaptability to diverse global environments.
- ❖ **Technical Landscape Owner:** Led team of 16 resources (Including Linux, DB and Basis) with successful upgrades of entire landscape including S/4HANA, SAP PO, DMS, SAP Hana. Adept in SAP Hana configurations and HA setup.
- ❖ Spearheaded the **successful migration of BOBJ from on-premises to GCP**.
- ❖ Worked on Conversion of ECC 6.0 EHP7 to S4Hana 1610, driving improvement in system performance and operational capabilities, ensuring a smooth transition and minimal disruption to critical operations.
- ❖ Performed Various Migration and Unicode Conversions from On Prem to Cloud on Azure, AWS, GCP and DCS. Landscape Includes S4Hana, ECC, PO, BOBJ.
- ❖ Proficient in managing **day-to-day incident handling**, collaborating with support teams, Incident Management and Change Management.

### KNOWLEDGE PURVIEW

- ❖ SAP BASIS | SAP HANA | SAP S/4HANA | SAP BTP | Cloud Connector | BOBJ | Unicode Conversions | ECC | SAP CRM | SAP Hybris | SAP CC | HA Configurations | SAP System Migrations | HANA System Replication | SLT Configurations | SAP PO | Disclosure Management System | SAP Solman | SAP SRM | SSO Configuration | Fiori | SAP ECC | SAP NetWeaver | SAP MDM | SAP SCM | SAP Java Systems | SAP Hana 1.0 & 2.0 | ADS Configuration | Smart Data Streaming | Geo Spatial Configuration | Kernel Patching | EWA Configuration | TMS Administration | RFC Connections | SAP Portal Administration |

### WORK EXPERIENCE

**Since Aug'21:** Deloitte Consulting USI as Senior Consultant – SAP Basis

**Client:** Georgia Pacific, Flower Foods, Enbridge Gas

#### Key Result Areas:

- ❖ Spearheading SAP implementation projects for two clients, involving comprehensive technical activities and delivering consulting services.
- ❖ Conducted in-depth analysis of various SAP Notes essential for successful project implementation.
- ❖ Successfully led Business Objects (BOBJ) Migration from on-premises to Google Cloud Platform (GCP).
- ❖ Executed BOBJ Service Pack (SP) upgrades, ensuring seamless system enhancements.
- ❖ Provided crucial support during go-live for Georgia Pacific, ensuring a smooth transition to the new SAP environment.
- ❖ Led Migration Project includes ECC, Fiori, PO & BOBJ systems from on-prem to Azure.
- ❖ Worked on Non-Unicode to Unicode Conversions along with Migrations.
- ❖ Worked on Fiori Migrations SSO setup using SAML & ADFS, Fiori tile configurations.
- ❖ Implemented and configured SAP Business Technology Platform (BTP) and Cloud Connector for live connections to SAP Hana.
- ❖ Spearheaded and successfully delivered SAP implementation projects for two clients, achieving an increase in project efficiency.

- ❖ Led the seamless migration of Business Objects from on-premises to Google Cloud Platform (GCP), resulting in a reduction in operational costs.
- ❖ Executed timely BOBJ Service Pack upgrades, ensuring an improvement in system performance and functionality.
- ❖ Achieved an improvement in overall client satisfaction through proactive project management and effective solution delivery.
- ❖ Managing a team of 8 members, imparting training & managing end-to-end performance.

#### Sep'19-Aug21: CTRLS Datacenters as SAP BASIS & HANA Consultant

**Client:** Lazard Group

##### Key Result Areas:

- ❖ **Technical Landscape Owner:** Solely responsible for overseeing the entire technical landscape for the client, handling activities independently. Actively participate in client meetings, gather requirements, and ensure successful delivery of solutions.
- ❖ **Project Implementations and Installations:** Successfully implemented SAP S/4HANA 1610, handling post-installation activities for seamless functionality. Conducted installations for SAP Process Orchestration (PO) and Document Management System (DMS).
- ❖ **SAP Hana Configurations and Upgrades:** Configured SAP Hana High Availability (HA) using SAP Hana System Replication and SLT Configurations. Led the installation of SAP Hana 2.0 with tenant creation, emphasizing high isolation. Executed upgrades for SAP S/4HANA from version 1610 to 1909 and SAP Hana from version 1.0 to 2.0 SP05.
- ❖ **Disclosure Management System:** Refreshed and administered the Disclosure Management System, ensuring data accuracy and system efficiency. Successfully upgraded the Disclosure Management System to meet evolving business needs.
- ❖ **Incident Handling & Support:** Managed day-to-day incident handling, collaborating with the support team to troubleshoot & resolve issues promptly. Provided expertise in SAP Solman 7.2 installation & managed system configurations for efficient support processes.
- ❖ **System Maintenance and Upkeep:** Performed SAP S/4HANA system refreshes, ensuring data consistency and system optimization.

#### Oct'17-Sep 19: T- Systems as SAP BASIS & HANA Consultant

**Client:** Volkswagen, Puma, Covestro, GFK, JG Petro, Kerry

##### Key Result Areas:

- ❖ **Project Delivery Team Member:** Integral member of the Project Delivery Team specializing in implementation and upgrade projects. Successfully handled onsite assignments for JG Petro, Kerry Foods and Volkswagen in Philippines, Singapore, Budapest, and Slovakia, showcasing a global project exposure.
- ❖ **Onsite Implementation and Configuration:** Led onsite implementation for JG Petro, setting up SAP S/4HANA 1610, and configuring HANA replication on 3 nodes. Contributed to an S/4HANA implementation project in Budapest and a support project in Slovakia.
- ❖ **Project Implementations and Upgrades:** Successfully executed SAP S/4HANA 1610 and 1709 implementations. Worked on SAP SRM EHP updates and SAP Hana 2.0 installation with high isolation. Managed ECC to S/4 Hana Migrations, ensuring a smooth transition.
- ❖ **Technical Configurations and Installations:** Configured SAP Hana High Availability (HA) using SAP Hana System Replication and SLT Configurations. Led SAP Solman 7.2 installation and managed system configurations. Installed and conducted post-processing for SAP PO 7.5. Executed system refreshes for ECC, SCM systems running on DB2 and MAXDB.
- ❖ **SAP System Migrations and Updates:** Led SAP System Migrations to DCS Cloud, ensuring seamless transition and data integrity. Conducted SAP NW 7.5 installation and ADS configuration for optimal system performance.
- ❖ **Security Configurations and SSO Implementation:** Configured Single Sign-On (SSO) using ADFS 3.0 and SAML 2.0 between Fiori and S/4 Hana backend, enhancing system security.

#### Sep'16-Oct'17: Hewlett Packard Enterprise as SAP BASIS Consultant & SAP HANA Consultant

**Client:** Syngenta, Schott, Airbus

**SAP Product:** SAP ECC 6.0, SOLMAN 7.2, SAP Net weaver, SAP S/4 HANA 1610

##### Key Highlights:

- ❖ Played a key role in diverse SAP projects within HPE's multi-client support framework.
- ❖ Led ECC 6.0 EHP7 to S/4 HANA 1610 migration, SAP HANA 1.0/2.0 installations, and S/4HANA 1610 implementations.
- ❖ Managed SAP PO 7.5 installation, NetWeaver 7.5 installation, Fiori configuration, and specialized configurations like Smart Data Streaming and Geo Spatial in HANA.
- ❖ Contributed to Solman 7.2 managed system configuration, portal administration, & upgrades, including support packs & kernel patches.
- ❖ Expertly handled system restarts for both ABAP and JAVA stacks, ensuring system reliability and optimal performance.

#### Oct'13-Jun'16: Capgemini India Pvt. Ltd. as SAP BASIS Consultant

**Client:** Invista, Amgen, Future Group

**SAP Product:** SAP ECC 6.0, SOLMAN 7.2, SAP Net weaver, MDM, SCM, SAP Java Systems

##### Key Highlights:

- ❖ Led the installation of BI 7.4 Systems, enhancing the client's operational capabilities and efficiency.
- ❖ Successfully executed system refreshes, including SAP MDM system refresh, ensuring minimal disruption to critical operations.
- ❖ Managed DB2 Restore and recovery, ensuring data integrity and high availability for critical systems.
- ❖ Played a pivotal role in system monitoring, checking system logs, and dumps, ensuring optimal system performance and reliability.
- ❖ Orchestrated the implementation of EWA configuration and generation, ensuring compliance with best practices and industry standards.
