CAREER OBJECTIVE

A motivated Java Developer with 3 **Years+** of experience with In-Depth knowledge of programming & Development tools & **Framework** such as **Hibernate**, **Spring** & **Spring Boot**. I aspire for a challenging position in a professional organization where I can enhance my professional skills & strengthen my performance in addition to the Organization's motto. A self-motivated achiever with an ability to plan and execute.

PROFESSIONAL SUMMARY

- Have experience in Java &J2EE, Spring Boot and JPA Hibernate and related technologies.

- Prolifient in core java Concepts, **OOPs concept**.

- Extensional knowledge of **Collection, Exception handling, String**.

- Good Knowledge in **Spring IOC** and **Spring Boot**.

- Hands on in writing database queries in **MySQL, Oracle**.

- Experience in web applications using **Spring boot**.

- Clever in Producing **Rest API** Services for applications.

- Experienced in **Hibernate Mapping**.

- Good in Analysing and understanding why bugs occur and fixing them.

- Familiar with the industry standard design patterns like **Singleton, Factory, Builder**.

- Strong Understanding to work in **Agile Methodology**.

- Worked in **microservices.**

- Experience of working in **Healthcare Domain and Banking**.

- Hands on Experience in **Spring Boot, Apache Tomcat and Jboss.**

- A good exposure to **swagger, Kafka streams, Docker and AWS**.

- Exquisite understanding and Experience in working on API **Postman.**

EXPERIENCE

Total Experience: 3.3 years

PROJECT WORK

Orbis

- Domain – Healthcare (Dedalus Healthcare)

- Project Title – Orbis (Connectivity)
- Duration - 5th June 2023 - Till date
- Technology Tools Used: **Core Java, Spring Boot, Jpa Hibernate, Restful services, Postman, Oracle.**

DESCRIPTION:
- Orbis is complete package for any hospital to provide better service to patients. It contains all modules like Patient Administration, Appointment, Surgery, Medication, Referral, Alerts etc.
- Gets expertise in Hl7 messages and exposure to FHIR api.
- Worked on different modules like Administration, Appointment (Scheduling), and Alert.
- Efficiently create and parse different segments of Hl7 message i.e. EVN, PID, PV1, OBX, PRD ect.
- Implemented new features in the existing application.
- Effectively integrated the different products like Lorenzo and modules of Orbis.

10xBanking

- Domain: **Banking (Infosys Ltd.)**
- Project Name: **10x Banking**
- Duration: June 2021 –
  May2023
- Technology Tools Used: **Core Java, Spring Boot, Jpa Hibernate, Restful services, Postman, MySQL Workbench, Aws Services, Docker & Kubernetes and Kafka.**
- Process**: Agile Scrum Process**
- Architecture Type: **Spring Boot Microservices.**

DESCRIPTION:

- 10X Banking's is migrating banking applications to cloud (AWS).
- It has various microservices related to different domains. My team was responsible for **document management microservices**.
- Implemented retriable functionality on different api's of microservices.
- Implemented automated build and deployment processes to streamline release management processes.
- Maintained existing software systems by identifying and correcting software defects.
- Created POC for innovative new solutions.

POC & Dummy Projects:

1. Created A POC to demonstrate the integration of Kafka streams in java (Consumer & Producer)
2. Created A Dummy Flight booking System [Front End- Html, Bootstrap, Angular] [Backend- Spring Boot, java]

EDUCATION & CERTIFICATION
- Completed B.Sc. (Information Technology) from Mumbai University
- Achieved **Aws Developer Associate** Certificate.
