Jaipur, Rajasthan (India) 🗺

Summary

- ✓ 12+ year of IT Experience in analysis, design, development, documentation and testing of software systems in Java, J2EE.
- ✓ Strong knowledge on application development using various SDLC methodologies like waterfall, Agile/Scrum.
- ✓ Strong experience in frameworks like Spring MVC, Spring Boot, Spring Data JPA, Spring Security etc.
- ✓ Experience in configuring and deploying cloud-based applications using Microservices architecture on Docker Containers.
- ✓ Sound RDBMS concepts and broadly worked with Oracle, Postgres.
- ✓ Hands on experience with build and deployment tools including Maven, Gradle, Jenkins and Kubernetes.
- ✓ Effort estimation and application architecture design.

Skillset

Client Side	HTML, CSS, JS, Bootstrap, Angular
Server Side	Java, J2EE, Java Design Pattern, Spring Boot microservice, Spring Security, Spring Data JPA, Swagger, Hibernate, Graphql, Oracle, Postgres, Apache Tomcat, WebSphere, Postman
Development & Operations	Docker, Kubernetes, Jenkins, Maven, Gradle, Git, Datadog, Junit, SonarQube, Black duck, Checkmarks, Agile, Scrum, Jira, Confluence
Cloud	AWS EKS Cluster, AWS 53, Cloud Watch, S3 Bucket, RDS, Redis, SES, Kube Seal Secrets

Education

MCA	Jaipur National University	2013
MSC-CS	MDU Rohtak	2010
BA	Rajasthan University	2008
12th	Rajasthan Board	2005
10th	Rajasthan Board	2003

Certification

Post Graduate Program in DevOps	Caltech	2023

Experience

Nagarro Software/ ATCS Pvt Ltd	Senior Staff Engineer/ Project Lead	March 2023 – **Present** (Nagarro) March 2019 – February 2023 (ATCS)	Jaipur
IL&FS Technologies Ltd	Senior Software Engineer	May 2015 – February 2019	Jaipur (Onsite), Hyderabad (Onsite)
ASPL Pvt Ltd	Senior Software Engineer	October 2014 – May 2015	Jaipur
HCL Infosystem Ltd	Software Engineer	December 2010 – September 2013	Jaipur, Mangalore (Onsite)

Project Details

Project #1	Project Name	**Tech Career Hub**
	Description	Tech Career Hub is a user-friendly web application designed to streamline the hiring process for candidates interested in Dealership positions while enabling dealership users to post job openings and review candidate job applications.
	Technology	Java 17, Spring Boot Microservices, Spring Cloud, Spring Data JPA, Spring Security, Angular, Docker, Kubernetes, AWS Cloud, Postgres
	Role & Responsibilities	✓ Develop the microservices and implement the security on API Gateway. ✓ Develop the report microservices using spring boot graphql. ✓ Configure the security tools like checkmarks, black duck etc and fixes the vulnerabilities. ✓ Design the database ✓ Requirement Gathering & provide the estimation.
Project #2	Project Name	**DPMS (Dealer Personnel Maintenance System)**
	Description	The Dealer Personnel Maintenance System (DPMS) is a web-based application, used to manage the dealership employees in MBUSA.

		DPMS offers various functionality like hire the employees, edit the employee information, terminate the employees, transfer the employee into another dealership.
	Technology	Java 17, Spring Boot Microservices, Spring Cloud, Spring Data JPA, Spring Security, Angular, Graphql, Docker, Kubernetes, AWS Cloud, Postgres
	Role & Responsibilities	✓ Develop the microservices and implement the security on API Gateway. ✓ Develop the report microservices using spring boot graphql. ✓ Configure the security tools like checkmarks, black duck etc and fixes the vulnerabilities. ✓ Design the database ✓ Requirement Gathering & provide the estimation.
Project #3	Project Name	**MB Academy**
	Description	It is the training hub for Mercedes-Benz dealership and its employees. It helps the dealers in better performance and getting more benefits in terms of recognition and incentives from MB by providing training.
	Technology	JAVA/J2EE, Spring-MVC, Spring Data JPA, JDBC, Postgres
	Role & Responsibilities	✓ Development & Support. ✓ Estimate the effort for new Enhancement.
Project #4	Project Name	**Bhamashah Yojana**
	Description	Bhamashah Yojana is a significant initiative launched by the Government of Rajasthan in India. It's a pioneering scheme that aims to provide financial inclusion to women and their families in the state.
	Technology	JAVA/J2EE, Spring-MVC, JDBC, Hibernate, Oracle
	Role & Responsibilities	✓ Development of application ✓ Unit testing
Project #5	Project Name	**Dharani**
	Description	The Dharani Project in India refers to a significant initiative undertaken by the government of Telangana. It's primarily focused on updating and digitizing land records in the state. The aim is to create a comprehensive, transparent, and easily accessible land record system. This project intends to streamline the process of maintaining land records, ensuring accuracy, reducing discrepancies, and enabling easy access to information for landowners.
	Technology	JAVA/J2EE, Juery, Bootstrap, Spring Framework, Hibernate, Postgres
	Role & Responsibilities	✓ Development of application ✓ Unit testing
Project #6	Project Name	**Bancmate FI (Financial Inclusion)**
	Description	Bancmate Financial inclusion refers to the accessibility and availability of financial services to all individuals and businesses, especially those who are excluded from the traditional financial systems. The goal is to ensure that everyone has access to affordable and suitable financial products and services, including banking, savings, credit, insurance, and payment systems.
	Technology	JAVA/J2EE, Struts 1.2, Oracle
	Role & Responsibilities	✓ Development of application

Personal Details

Date of Birth	14th September 1988
Marital Status	Married
Nationality	Indian

I declare that the above information is true to the best of my knowledge and look forward to a rewarding career in your esteemed organization.

Thanks & Best Regards

Ankit Kumar Jain
