EXPERIENCE

VictrixSystemslabs Pvt Ltd, Pune — Technical Analyst

February 2023 - PRESENT

During my experience as an Software Developer, I had the opportunity to contribute to the development and enhancement of the platform by implementing new features and providing Vue Js code updates. I worked closely with cross-functional teams to understand business requirements and translate them into technical specifications. Utilizing my expertise in web-based applications and Vue Js, I successfully integrated and customized the OpsStream® platform to meet the unique data and process management needs of our clients. Through my efforts, I ensured seamless integration, improved functionality, and enhanced user experience. My contribution played a vital role in empowering businesses to execute operations more efficiently, achieve greater agility, and deliver exceptional quality to their customers.

I honed my skills in fostering effective collaboration within cross-functional teams, which significantly contributed to the successful delivery of projects. **Additionally, my experience includes actively participating in Agile ceremonies and implementing Scrum methodologies, thereby cultivating an environment conducive to iterative development and continuous improvement.**

Centelon Pvt Ltd, Kochi — Software Engineer

February 2021 - January 2023

Working as a senior software developer managing various software. Coordinating a team of developers. Building quality software products in agile methodologies.
