- 2011 – SSC Maharashtra Uni. (85.82%)

AWARDS

- Extra Miler for month.
- Team award.
- Employee of the quarter.

INHOUSE TRAINING

- SQL.
- Performance Testing.

HOBBIES

- Travelling.
- Gardening.
- Cooking.
- Dancing

TECHNICAL SKILLS:

Work Experience on Manual Testing

- Good knowledge of **Software Development life Cycle** (SDLC) and **SoftwareTesting Life Cycle** (STLC).
- *Good in **Test Execution Process, Defect Life Cycle, and Test Plan**.*
- Detecting bugs & classifying them based on **severity**, **priority**.
- *Have performed **functional testing, system testing, system integration testing,ad-hoc testing, smoke testing, regression testing.***
- Have experience in of functionally evaluated various Web and desktop applications.
- Implemented Agile Methodology process in the project.
- Proficient in writing Test cases by using test case design technique.
- *Experience in **QA Processes, software lifecycle, testing methodology, test automation, defect tracking & test estimation.***
- Requirement gathering from client, Team reviews, raising defect, defectmonitoring, providing feedback and worked closely with development team.
- Good Understanding **Postman** Tool for **API testing.**
- Knowledge of Defect management tool i.e. **JIRA.**
- Have pleasant experience in **UI testing** both Manual and Automation.
- Have pleasant experience in of HTML Email Testing.
- Have experience in **SFMC** Testing.

Work Experience on Automation

- Proficient in Core **JAVA Programming** Worked on Selenium WebDriver version 3.14 for automating test cases invarious functional Modules.
- Created scripts which involve **Parameterization, Descriptive programming, Managing dynamic objects etc.**
- Pleasant experience of **OOPS concepts, Collection framework, Arrays and String Class JAVA.**
- Experience of creating **POM** and **Test classes** for the framework.
- Extensively used **TestNG** framework for the development of the Test classes.
- Good understanding of Build Automation tool i.e., **Maven for Data DrivenFramework.**
- Experienced of **assertions** and **Annotations** in **TestNG** framework.
- Experience in executing the test scripts in parallel for **IE, Firefox, and Chrome**.
- Writing test cases as per requirement and then **Automates**.
- Evaluate scripts execution, debugging and fixing the Automation issues.
- Good understanding of **Object Repository**.
- Understanding Business need from BSA's. Writing Process flow based on requirement and then automating the scripts.
- Doing Peer Review and QA for scripts developed by teammates as per thestandards followed in the project.
- Have good understanding of **Data Driven Framework.** Also have good understanding of **GitHub** for the **repository** management and **Jenkins for continuous integration.**

TOOLS AND LANGUAGES

- Language: Core JAVA
- Databases: **MySQL.**
- Automation: **Selenium WebDriver.**
- Operating Systems: **Windows 7, Windows 10, Linux.**
- Bug Tracking Tools: **JIRA, RTC.**
- Web services Testing Tool: **POSTMAN.**
- Campaign Testing Tool- **AEM, SFMC.**
- Mobile App Testing Tool: **Lambda Test.**
- Multi Browser and device Testing: **BROWSERSTACK.**
- Accessibility Testing: **NVDA, AXE Tool.**
- Email Testing: **Litmus.**
- **CMS Testing- AEM**

WORK EXPERIPENCE SUMMARY

Epsilon India Data and Digital Technology Solutions LLP

From September 2022 – Till Date.

- Preparing **daily report** for the executions of the testcases
- Participate in **scrum meeting** to discuss about project progress report every day.

Software Quality Analyst
Capita India Pvt ltd   *February 2018 – September 2021*

Project: Funds Portfolio. Domain: Investment Banking. Client: Ally Financial, USA.

Project Description:

The American **Funds Portfolio** Series is designed to help investors pursue long-term investment success. Consider what these funds offer:

Convenience- Purchase a diversified portfolio of American Funds in a single transaction.
Flexibility- Easily incorporate the funds into your investment portfolio based on common objectives. Customization-Separate assets that you want to protect from those you're willing to subject to more volatility to pursue long-term goals. Whether for stake-building, hedging, yield enhancement, or disposal, we help our clients to manage their equity stakes worldwide. That means no more silos. No more multiple platforms and login credentials.

Roles and Responsibilities:

- Analyzing & validating the completeness of business requirements.
- Generating the Test scenarios and Test cases.
- Generating Regression **Test** scripts by extracting the requirements that need to be tested from available documentation and/or liaising with the relevant people.
- Performed **Smoke**, **Functional**, **System Integration**, **Retesting**, **Regression testing**.
- Conduct Internal Test Case **Peer Reviews.**
- Participated in weekly **status meetings** with the team, developers to discuss open issues and communicating with onsite team.
- Propose improvements to current practices ensuring that approved enhancement are fully implemented and the repeat errors are eliminated.

I hereby declare that all the information provided by me in this application is factual and correct to the best of my knowledge and belief.
