- **Technical skills**: Cloud computing, Cloud security, Linux, Vulnerability management, IAM
- **Soft Skills**:   Attention to detail, Troubleshooting, Problem Solving, Team Management, Decision Making

---

WORK EXPERIENCE

Working as an IT Operations Analyst at ACCENTURE From September 2021 – till date.

- Providing analytical support and consultation for security issues on Cloud (AWS/Azure/GCP) and other vulnerabilities in Windows and Linux machines hosted on cloud by understanding company security policies.
- Analysed vulnerability scan results to assess risk severity, exploitability, and business impact, prioritizing remediation efforts for critical vulnerabilities.
- Presented security findings and recommendations to technical and non-technical audiences. Effectively troubleshooted security issues and implemented solutions to mitigate risks.
- Collaborated with cross-functional teams to identify emerging risks, assess their potential impact on the organization and develop mitigation strategies.
- Cloud security governance and oversight on cloud security best practices, risk management, and governance frameworks to ensure security controls are properly configured and maintained.
- Implemented robust IAM solutions, including role-based access control (RBAC), multi-factor authentication (MFA) to enforce least privilege and enhance identity security, data protection solutions to protect sensitive data stored in cloud.
- Regulatory compliance and policy development ensuring that the organization complies with relevant laws and regulations by monitoring changes in legislation and industry standards.

EDUCATION

Ramaiah University of Applied Sciences   Bangalore, Karnataka, India
B.Tech in Electronics and Communication; GPA: 7.9   2017-2021

CERTIFICATIONS

- Microsoft Azure Fundamentals (AZ-900).
- Microsoft Identity and Access Administrator Associate (SC-300).
