SUMMARY

Software Engineer with 4.6 of experience specializing in developing solutions across logistics, healthcare, project management, and the financial domain. Proficient in all phases of the software development lifecycle, from debugging to client interactions. Passionate about utilizing cutting-edge technologies to drive significant outcomes. Committed to continuous learning and innovation.

EXPERIENCE

Consultant (Client : Goldman Sachs Services pvt ltd)   KPMG India, Apr 2023 - Present (7 months)

- Engaged in surveillance application development, emphasizing security and efficiency.
- Collaborated on designing fraud-detection algorithms.
- Integrated APIs ensuring smooth data communication.
- Maintained regular communication with clients for alignment with needs and standards.

Associate Member of Technical Staff-II   Athmin Technologies, May 2021 - Apr 2023 (2 years)
Hopfirst (Logistics)

- Led development of the monolithic-based logistics application.
- Involved in both front-end and back-end optimizations.

Illuminate Health (Healthcare)

- Developed the platform with features like appointment scheduling and video calls.
- Adopted microservices architecture for scalability.
- Integrated AWS services: S3 storage, EC2 computation, and CodeCommit for code management.

Pronnel (Project Management)

- Contributed to Athmin's project management solution rivaling JIRA.
- Utilized microservices architecture for modularity.
- Integrated AWS CloudFront CDN and EC2 hosting.

General Contributions

- Liaised with teams for product enhancements and software solutions.
- Upheld code quality standards and participated in code reviews.
- Proficient in Java, SpringBoot, and JavaScript.

Engineer   Ashoka Buildcon Limited, Feb 2018 - Feb 2020 (2 years 1 month)

- Contributed to the "IPDS" project, monitoring electric store inventory and energy consumption.
- Assisted in tailoring requirements specific to electric store operations.

- Designed intuitive user interfaces and backend functionalities.

- Participated in testing, addressing bugs and data inconsistencies.

- Developed skills with Java, Spring, and SQL databases.

- Engaged in team code reviews, adopting best practices.

- Actively joined team meetings to ensure alignment with software specifications.

Client Acquisition Executive   Aspiring Minds, Nov 2017 - Feb 2018 (4 months)

- Engaged with potential clients to tailor software solutions.

- Mastered company software products to convey benefits to clients.

- Partnered with the development team to enhance products based on feedback.

- Managed client interactions using CRM software, tracking leads and metrics.

- Conducted product demos, highlighting our technological edge.

- Assisted in crafting proposals showcasing software capabilities.

- Continuously updated knowledge on industry trends for informed discussions.

EDUCATION

Lakshmi Narain College of Technology, Bhopal
Bachelor's degree, Electrical and Electronics Engineering   2013 - 2017
   ROYAL JUNIOR COLLEGE
Higher Secondary, Physics, Chemistry, Maths   2011 - 2012
   Shree Swaminarayan Gurukul international school
Matriculation, Physics, Chemistry, Maths   2007 - 2010

LICENSES & CERTIFICATIONS

Problem Solving (Basics) - HackerRank   9BA9C67498E3
JavaScript: Understanding the Weird Parts - Udemy   UC-6ec2d5d0-1404-4d20-b9e1-b24816570ea2
Java - HackerRank

SKILLS

Problem Solving, Mongoose ODM, Spring Data JPA, Apache Kafka, Microservices, SpringBoot, Java, JavaScript, Node.js, Hibernate, Design Patterns , SOLID Principle
