Akshansh Bhadauriya
Technology Consultant

Certified SAP PS Consultant with 3.7+ years of hands-on experience. Proven track record in successful implementation, support, and roll-out projects across mining, manufacturing, and utilities industries. Skilled in developing RICEFW objects to enhance system functionality and efficiency. Adept at tailoring solutions to meet diverse project management needs. Committed to driving project success through meticulous planning and seamless integration of SAP capabilities.

Experience

Technology Consultant | Oct 2023 - Present
PwC India | Gurgaon

Solar Energy (On- site)

- Currently engaged in a utilities industry project at PwC, specializing in the configuration of investment and customer projects.
- Configured SAP modules to meet the specific needs of utilities clients, focusing on investment and customer project functionalities.
- Created comprehensive user manuals to guide end-users in effectively utilizing SAP solutions, ensuring smooth adoption of new processes.
- Led and executed User Acceptance Testing (UAT), collaborating with stakeholders to validate system functionality and ensure alignment with business requirements.
- Collaborated with cross-functional teams to analyze business processes, identify improvement opportunities, and implement SAP best practices.

Manufacturing (On- site)

- Engaged in a manufacturing project focusing on requirement gathering, workflow design, and integration system configuration.
- Conducted comprehensive requirement gathering sessions, collaborating with stakeholders to understand business needs and objectives.
- Designed efficient and tailored workflows to optimize business processes, ensuring alignment with industry best practices and client-specific requirements.
- Configured integration systems to seamlessly connect SAP modules, enhancing data flow and information exchange across the organization.

Packaged App Development Analyst | 2020 - Oct 2023
Accenture Solutions Pvt. Ltd. I Gurgaon

Mining

- Configured and customized SAP PS and PM functionalities adhering to client requirements.
- Proficient in all aspects of Project Systems including Structuring, Planning, Budgeting, cost allocation, settlement, and execution.
- Integration of PS and PM with Fiori (Project Creation, Shutdown Management, Notification, Maintenance tasks, workflow, Resource allocation)
- Coordinated with business, analyzing the requirement, and providing the proper solution.
- Actively involved in Preparation, Feasibility, Design/Build review, Realization, Go-Live support, and implementation phase for each project.
- Created functional specification (FS), and estimation, for individual requirements.

Achievements

- Successfully led the implementation of SAP PS solutions for multiple projects, ensuring adherence to project timelines and achieving on-time delivery milestones.

- Identified and implemented process optimization strategies within SAP PS, leading to a streamlined project management process and a notable improvement in overall efficiency.

- Leveraged SAP PS expertise across diverse industries, including mining, manufacturing, and utilities, showcasing adaptability and the ability to tailor solutions to meet specific industry requirements.

- Took responsibility from time to time as Project lead & and supported respective modules while implementing solutions for new requirements.
- Developed enhancements for existing PM process i.e., addition of new report, enhancement of standard TABS of Work orders and Notification, enhancement for CATS process, creation of an interface for extracting data from SAP system & sending it to third-party tools via different middleware.
- Successfully delivered Roll-out projects based on PS, PM, and Fiori.
- Worked on different project integrations with SAP PM, PS & and other third-party tools.
- Provided logic to the ABAP team for developing custom-based solutions of each requirement.
- Collaborated with cross-functional teams to gather project requirements, design solutions, and deliver on-time, on-budget implementations.
- Conducted end-user training sessions and provided go-live support, enhancing team capabilities and system adoption.
- Developed and maintained project testing documentation including Unit testing, Retrofit testing, Integration testing, Regression testing, BRIT, and BRUT testing.
