9502780209

A dynamic and versatile professional with a Bachelor's degree in Computer Sceince and Engineering with **4 + years' experience in** both **Automation** & Manual Testing with zeal to be an efficient Software Testing professional utilizing my skills to work in a globally competitive environment on challenging assignments; to improve my technical skills along with job satisfaction.

PROFESSIONAL STRENGTH

- Having **4+ years** of progressive experience in using various Testing Methodologies and Testing Techniques.

- Inclusive experience in **Selenium Automation** Testing; Preparing test scripts as per Regression needs.

- Sound knowledge in evolving Test Plan development, Test Case design, and Status Reporting. Strategic Test Cases, Test Execution and Test Analysis.

- Having hands on experience knowledge of SOAPuI Webservices testing.
- Experienced with functional web services tests.
- Skilled with creating automated web services testing processes.
- Able to create data-driven tests using external sources.
- Well acquainted with Software Test Life Cycle (STLC) and Bug Life Cycle (BLC).

- Experience in Agile methodology.

- Analysing requirements by interacting with client and onsite team members to achieve the expected targets.

- Proficient in analysing and translating Business requirements to system requirements.

- Exceptionally organized with great ability to multi-task.

SELENIUM SKILL SET

- Experience in WEBDRIVER, GRID, TESTNG, JAVA .

- Hands on experience in CONTINUES INTEGRATION tools like JENKINS .

- Hands on experience in Build Configuration tools like MAVEN.

- Responsible for Committing the **Automation** Codes (Updated Scripts) in GitHub.

- Hands on experience in CUCUMBER D FRAMEWORK .

- Experience in PAGE OBJECT MODEL .

- Involved in designing the **framework.**

- Good knowledge & worked on **TestNG** Annotation.

- Executed test scripts on **IE, Firefox &Google chrome**.

- Good knowledge on **Core JAVA**. Experience in Code optimization/ refactoring to improve efficiency automation code.

- Good understanding of **Automation Life Cycle**.

WORK EXPIERENCE:

TCS(From Nov 21, 2019 to Till Date,

Automatio Test Engineer).

PROJECT DETAILS

1.UNCLICK COUPONS

Role   :   **Junior Test Engineer**
Team size   : 08
Duration   :   **January-2020 to FEB-2021**
Description:
        Uclickcoupons.com is a unique coupon website that is focused on providing local coupons to the communities that we serve. In uclickcoupons.com you will find coupons such as:
        * Grocery Coupons, Restaurant Coupons, Entertainment Coupons, Retail Coupons , Nightlife Coupons
        Uclickcoupons.com allows you to find your favorite coupons in one place and allows you to email (even to your phone) or print your coupons to   yourself or friends from one easy location. Make sure to subscribe to our email list to have your favorite types of coupons sent to you on a weekly basis.

2.EXCHANGE

Role   : Automation Testing, Selenium WebDriver

Team size   : 09

Environment   : Windows XP/7, SQL

Project Duration   : May 2021 to NOV 2022
Exchange process is the work of experts who have the knowledge and experience to provide solutions that are both forward looking and practical. It's a benefit you won't likely get from any other insurer. Exchange is a level death benefit term life insurance product to age 95. Guaranteed level premium periods of 10, 15, 20 and 30 years are available. After the level premium period, rates increase each year through age 94.Our Rapid Decision Express product also features optional riders such as Dependent Child, and Accidental Death. Not all products available in all states. Fidelity Life Association is licensed in all states and the District of Columbia, except for Wyoming and New York.

3.BUSINESS INSURANCE

Role   : **Automation Testing Using SeleniumWebDriever**

Team size   : 08

Environment   : Windows XP/7, PHP, SQL

Project Duration   : JAN 2023 to Till date.
Business insurance protects that investment by minimizing financial risks associated with unexpected events that may occur during the normal course of business or a natural disaster. It is especially important for small business owners to carefully consider and evaluate their business insurance needs because they may have more personal financial exposure in the event of loss. This deals with various polices Office, Retail, small-scale business polices. This is web based application developed for Agents to submit electronic copy to underwriter. The major sub modules are collecting the business information, generating quotation and submit the policy to underwriter.

ROLES & RESPONSIBILITIES

- Planning **Automation** Tasks and Creating **Automation** Test Scripts using Java & **Selenium**

- WebDriver, and implementing the **Selenium Automation** control flow for all projects.

- Responsible for Executing **Automation** test Cases and Logging the Result and Bugs in applications.

- Defining and implementing the supportive open source tools required for **Selenium Automation** for the project.

- Creating plans and test jobs in continuous integration tools (Jenkins) based on the project release.

- Implementing the framework related to the project.

- Executing automated test cases for Stability/Failure Analysis in **Selenium** Grid and Master-Slave environments.

- Integrating the test results to the defect tracking tools automatically.

- Taking ownership of the code changes; analyses the build status if unstable/failed and make correction in codes.

- Plan the execution timing of the **Automation** scripts by optimizing the code to parallel execution.

- Implementing cross browser/cross platform testing with/without VMs and grids based on the cost allocated for the project.

- Creating customized reports based on client specifications.

- Involved in Functional, Regression and System testing

- Prepared Bugs feedback report and involved in tracking and managing bugs.

TECHNICAL SKILL SET

Languages   : Core Java, , XML, SQL.

Framework   : Data Driven Framework (DDF), Hybrid Driven Development (HDD), Cucumber Framework

TestNG **Automation** Tools   : **Selenium** IDE & **Selenium** Eclipse

Build Tool   : Maven

Testing   : **Automation** Testing, System Integration Testing, Regression Testing, Acceptance Testing, Smoke Testing, Functional Testing.

Bug Tracking Tool   : Bugzilla

EDUCATIONAL QUALIFICATION

Bachelor's of Engineering from TECH College, JNTUA university, Ananthapur with 77.01% (YOP: 2015)

PERSONAL DETAILS

Date of Birth   :   06 May 1994
Gender   :   Female
Marital Status: married
Nationality   :   Indian
