Personal Profile

Highly skilled and results-driven SQL Server DBA with 3 years of experience in managing, maintaining, and optimizing complex database environments. Proficient in database administration tasks including installation, configuration, backup and recovery, performance tuning, and security management. Possess a strong understanding of relational database concepts and hands-on expertise in SQL Server technologies.

Work Experience

Tata Consultancy services   *Noida, India*
Database Administrator   *July 2021 - Current*

- Administered and optimized SQL Server databases, ensuring their high availability, security, and exceptional performance.
- Successfully implemented database strategies to meet business requirements, resulting in improved operational efficiency.
- Expert in monitoring, optimizing, and maintaining database performance, with a focus on minimizing downtime.
- Proficient in the development and execution of robust database backup, recovery, and disaster recovery plans, ensuring minimal data loss.
- Collaborated with cross-functional teams to optimize SQL queries and stored procedures, leading to significant performance improvements.
- Demonstrated expertise in database migrations, patching and system upgrades, with minimal disruption to ongoing operations.
- Consistently implemented strong security measures, managing user accounts, roles, and permissions to safeguard sensitive data.
- Recognized for documenting database configurations, procedures, and best practices, enhancing team efficiency and knowledge transfer.
- Adept at troubleshooting and resolving complex database issues efficiently.
- Spearheaded database maintenance activities, including patching and updates, resulting in enhanced system reliability.
- Developed and maintained documentation for database configurations, procedures, and troubleshooting guidelines.

Skills

Database Skills	SQL Proficiency, T-SQL, High Availability(AlwaysOn) and Scalability, Disaster Recovery Planning, Monitoring Tools (e.g., OASIS, Splunk) ,PPDM, Database Migration, Data Encryption and Security, Reporting and Monitoring for Data Protection, Data Replication and Synchronization, PL-SQL, Performance Tuning and Optimization, Backup and Recovery Techniques.
Programming	C/C++, HTML/CSS, JavaScript, SQL, Git.

Education

Guru Gobind Singh Indraprastha University   *Dwarka, India*
Bachelor of Technology   *August 2017 - July 2021*

- Graduated with Distinction
- Selected for Industrial Visit among the top of the class

Govt. boys Senior Secondary School No.2   *Delhi, India*
High School   *Apr 2015 - Apr 2017*

- Passed with Distinction
- Specialised in Physics, Chemistry, and Maths with Computer Science

Certifications

SQL Server Administrator   *Delhi, India*
Udemy   *2021*

- **Stronger foundation in SQL Server administration:** Got a comprehensive understanding of core functionalities like installation, configuration, database management, security, and performance optimization.
- **Technical Skills:** SQL Server Installation and Configuration, Database Management, T-SQL Programming, Backup and Recovery, Security and Auditing, Database Migration, High Availability and Scalability.

Microsoft Azure Fundamentals   *Delhi, India*
Microsoft   *2023*

- Gained foundational knowledge of cloud concepts in general, got an overview of the wide range of services offered by Microsoft Azure, including compute, storage, networking, databases, analytics, and artificial intelligence functionalities.

Web Development   *Delhi, India*
Crio   *2023*

- Gained proficiency in essential web development languages like HTML, CSS, and JavaScript. These languages are the building blocks of any website, and mastering them equips you to create user interfaces, add dynamic elements, and bring websites to life.
