SUMMARY

Experienced Java Developer and Data Analyst with 2.8 years of experience and a strong foundation in software development and data engineering. Proficient in developing robust applications using Spring Boot, REST API, and Microservices architecture, and skilled in data analysis using SQL, Python, PySpark, and Power BI. Holds an AWS Certified Cloud Practitioner certification, demonstrating proficiency in cloud computing fundamentals. Committed to continuous learning and professional development.

EDUCATION

Bachelor of Engineering Electrical
SBPCOE, Indapur
Pune University
AUGUST 2014 – JUNE 2018
Percentage: 64.46%

EXPERIENCE

Associate Software Engineer | Clairvoyant an EXL Company
JAN 2022 – AUG 2024

SOFTWARE DEVELOPMENT
Payment Client- Software Engineer (Java)

- Created and maintained APIs for communication between the front end and back end of applications.
- Implemented security best practices to protect applications from common vulnerabilities.
- Identified and resolved software defects, bugs, and issues through debugging and troubleshooting.
- Added unit test cases using Junit and Mockito.
- Created and maintained documentation for the codebase and APIs.
- Familiarity with build and deployment tools such as Maven and Jenkins.
- Worked with cloud technologies such as AWS and GCP.

- Kept up with the latest trends, best practices, and technologies in development.

DATA ANALYSIS
Sports Analytics Client- Data Analyst

- Gathered data from multiple sources, conducted data cleaning and preprocessing using SQL and Python to ensure accuracy and consistency.
- Identified and corrected data discrepancies, missing values, and outliers to maintain data quality.
- Wrote SQL queries to extract and manipulate data for analysis and optimized existing SQL queries to improve performance and reduce execution time.
- Created the tables from data model to dashboard development in power bi to summarize the data.
- Kept up to date with the latest trends and best practices in data analysis and visualization.
- Completed relevant courses and certifications to enhance technical skills and knowledge.

TECHNICAL SKILLS

- **Programming Languages:** Java, Python, SQL, PySpark, HTML, CSS, JavaScript, React JS
- **Frameworks and Libraries:** Spring Core, Spring Boot, Spring Security, Bootstrap
- **Data Tools:** Power BI, MySQL, PostgreSQL.
- **Development Tools:** Jenkins, GitHub, Postman, Junit, Mockito
- **Cloud and DevOps:** AWS

COURSES COMPLETED

- AWS Certified Cloud Practitioner
- Data Analysis using PySpark [Coursera]
- AWS Cloud Technical Essentials [Coursera]
- DevOps on AWS [Coursera]
- Core and Advance Java [Cyber Success Pune]
- Spring & Hibernate (includes Spring Boot) [Udemy]
