## Professional Summary

- I have total 5.6 years of experience in **IT Industry** with **Dot Net** and **SQL Server.**
- 5 Years of experience in Software Development Life Cycle SDLC involving Requirement Gathering, Analysis, Logical Physical Architectural Modeling, Design, Development, Testing, Implementation and Production Support.
- Advanced experience in developing Web and Client/Server Applications based on Microsoft .NET Technologies and expertise in implementing N-Tier Architecture.
- Expert in designing and developing web and windows based applications using MVC, ASP.NET, C , ADO.NET, Entity Framework, Enterprise Library, LINQ, SOAP, Web Services, AJAX Control Tool Kit, IIS, XML and XSLT.
- Experience in designing web pages with HTML, JavaScript, CSS, HTML 5, CSS3 and JQuery in a hand coded environment.
- Sound knowledge on Object Oriented Programming OOPS Concepts including Inheritance, Abstraction and Polymorphism.
- Extensive front end and backend development experience working with .Net Framework 4.5/4.0/3.5/3.0, Visual Studio.NET 2022/2019/2017/2015.
- Implemented applications using Model View Controller MVC design pattern. Worked with Console applications, Windows applications, ASP.NET Web Forms, ASP.NET State Management, ASP.NET Caching, Securing ASP.NET Web Applications.
- Expertise in working with Graphical User Interface GUI web development using technologies like Master Pages, AJAX Controls, JQuery, CSS, Themes and Skins.
- Experience in working with Windows Communication Foundation WCF .NET Web Services using WSDL, SOAP and UDDI in .Net Framework 4.0/3.5.
- Experience in working with Language Integrated Query LINQ especially LINQ to object and LINQ to SQL.
- Good experience in Exception Handling, Debugging and tracing by which the whole picture of application runtime behavior can be seen and analyzed more efficiently.
- Experience in developing and building applications using Windows Workflow Foundation and XAML.
- Experience in using XML related technologies like XSLT, X - Path and X Query. Good working experience with ADO.NET, Microsoft Application Blocks and Entity Framework as a part of accessing and updating the database.

## Academic Profile
**Graduation:**
   **Bachelor of Technology (B.TECH) -** from **Jamia Hamdard University**   in 2012-2016 with **73.4%.**

**12th Board:**
   **12th**   in 2011 from Jamia Board, Jamia Millia Islamia University, New Delhi with **57.4 %.**

**High School:**
   **S.S.C. (10th)**   in 2009 from Jamia Board, Jamia Millia Islamia University, New Delhi with **76.6%**.

## Work Experience
- Worked as **Software Developer** at **SIS GROUP** for 2.9 years from July 2016 till March 2019.
- Worked as **Software Developer** at **Chetu India Pvt Ltd** for 1.2 years from May 2019 till Aug 2020.
- Recently worked as Senior **Software Engineer** at **Coforge Ltd** for 1.5 years from Dec 2020 till Aug 2022.

## Technical Skills

| OPERATING SYSTEMS | Windows |
|---|---|
| Technologies | ASP.Net, ASP.Net MVC ,C#, JavaScript, jQuery, ,ASP.Net Core,HTML, XML, Duck Creek. |
| DATABASES | MS SQL Server |
| PLATFORMS | Visual Studio .NET,Visual Studio Code |

## *Project 1):*
## *Title: Purchase Requisition and Purchase Order Management*
- It is a module in ERP system. This module allows the procurement team to more efficiently manage and control purchasing and ensure both employee and vendor compliance throughout the process.It has two sub modules. One is Purchase Requisition and other is Purchase Order.
- Purchase requisitions are a document used when an employee needs to make a purchase or an order request on behalf of the company. It is a document that is used to inform department managers or the purchasing officer of the decision so that the purchasing department can start the purchasing process. The finance team will also use this document to coordinate reporting procedures with the accounting department as well.
- Purchase orders are issued by the purchasing department after a purchase requisition has been made and passed the approval process. They are documents sent from a buyer to a supplier with a request for an order, and are a legally binding document.

**Roles:**
Developed the system with team.

**Responsibilities:**
- Involved through all the phases of Software Development Life Cycle.
- Participated in designed, developing, testing and implementing module using Asp.net.
- Modified modules according to the requirements and fixed the bugs and troubleshoot the technical problems
- Analysis of the initial requirements.
- Created database architechture.
- Created Custom Tab Control and Custom Grid to achieve the required functionality.
- Used Theming functionality for giving interactive and personalized user interaction. ⬚
- Created Event Calendar for users to know easily that on which date which programs are there.
- Generated reports which are exported in MS Excel using asp.net and sql server. ⬚
- Generated reports which are export in PDF format using Crystal Report. ⬚
- Coded T-SQL stored procedures, triggers and functions. ⬚
- Managed exception handling and logging using Enterprise Library. ⬚
- Was involved in the final release of the application.

## Project 2):
### Title: Vendor Management
- It is a module in ERP system. It manages vendor information. It registers the vendor in company's database. It has two sub modules. Vendor requisition and vendor creation. Its next phase remains about Vendor payment.

## Project 3):
### Title: Application for Employeement
- It is a module in ERP system. It manages the registration of the new joinees in the company with all necessary documentation and process.

## Project 4):
### Title: Seven Finger
- It is a module in ERP system. This creates the monthly branch wise performance reports in pdf form. It includes the detailed performance reports in all aspects of business and generate the report card based on the score.

## Project 5):
### Title: Reports
- It is a module in ERP system. I have designed this module to generate different type of reports from the front end. In our company, we use to provide a lot of data from back end on regular basis. To reduce that dependency I have designed this module in which manual reports can be generated for different departments like HR, Accounts, Operations, Procurement, Management etc.

**Extra-Curricular Activities/Personal Skills:**

- Worked as a Class Representative at college level.
- Participated in many cultural activities at both school and college level.
- Confident
- Hardworking
- Excellent presentation skills
- Reasoning ability
- Committed team player with flexible approach to work.
- Ability to adapt to new technologies quickly.

## PERSONAL INFORMATION:

| | | |
|---|---|---|
