EDUCATION

2021-2022
- Java Full Stack Development Course
- Quest Innovative solutions, Kozhikode

2017-2021
- B.TECH of Computer science and Engineering.
- Govt.college of engineering kannur

2015-2017
- Higher Secondary School
- Computer Science
- Govt.Girls Higher Secondary School Madappally.

SKILLS

- Project Management
- Public Relations
- Teamwork
- Time Management
- Leadership
- Effective Communication
- Critical Thinking
- Technical skill

LANGUAGES

- English (Fluent)
- Malayalam(Native)

PROFILE

Experienced software engineer with a degree in Computer Science and Engineering, boasting 2 years of hands-on experience. Specializing in Java programming, proficient in Java, Spring Boot, microservices, Spring MVC, and Restful Web services. Possesses a strong foundation in Object-Oriented Programming principles and expertise in Java, Python, C, and C++. Demonstrated track record of successfully delivering projects and excelling in fast-paced environments. Passionate about contributing to creative endeavors and continuously seeking new challenges to enhance skills and drive meaningful contributions. Committed to utilizing technical knowledge to foster innovation and drive advancements in software engineering.

WORK EXPERIENCE

Centelon Solutions Private Limited

Java Developer   2022 - PRESENT

- Developed robust components utilizing microservices architecture and Spring Boot framework as a Java Developer.
- Designed and implemented intricate workflow processes, ensuring seamless integration within the system.
- Executed the development of custom components tailored to specific project requirements, leveraging Java and related technologies.
- Collaborated with cross-functional teams to conceptualize, refine, and deploy scalable solutions, contributing to the overall project success.
- Applied best practices and design patterns to optimize performance and maintainability of developed components, ensuring high-quality deliverables.

PHP Developer

- Utilized Laravel framework to manage backend operations of websites.
- Implemented backend functionalities and features to enhance website performance and functionality.
- Developed robust server-side code to support seamless user experiences and efficient data management.
- Maintained and optimized backend codebase to improve website speed, security, and overall performance.

React Js

- Created websites using React.js with Tailwind CSS styles, focusing on responsive and visually appealing designs.
- Implemented Tailwind CSS styles to ensure consistent and visually appealing designs across the website.
- Collaborated with designers and stakeholders to translate design concepts into functional and user-friendly web applications.

Quest Innovative Solutions

Java Full Stack Developer   2021-2022

- Implemented full-stack solutions using Java, Spring Boot, Hibernate, and MySQL, ensuring robust backend functionality and efficient database management.
- Developed RESTful APIs and integrated them seamlessly into the application architecture, facilitating smooth communication between the front-end and back-end systems.
- Utilized Angular framework and HTML to design and develop dynamic and responsive user interfaces, prioritizing user experience and accessibility.

PROJECTS

Compassion website	**2024**
Infosys Finacle-FBil	**2022**
Myeats-Food Delivery app	**2022**
Face mask detection with- masked face recognition	**2021**
Android based shopping mall application	**2020**
