OBJECTIVE

Dynamic professional with over **9 years** of experience in **XSLT** and **Java**. Worked on application analysis, designing, new development and enhancements in existing products with continuous service delivery and support.

EXPERIENCE

1. Wolters Kluwer (March 2020 - till Date)

- **Project 1: Content Integration:**
- **Technologies used: Java 8-11, XSLT 2.0,RDF, Spring, Spring boot, Microservices, AWS, Python**
  - o Content Integration is an inhouse developed pipeline for content flow from raw state to end product. It transforms simple xml/ lotus notes into **enriched xml** with **metadata** so that it can be consumed by the end product.
  - o This is achieved via various platforms including **AWS**, **Solr**, **XSLT** transformations and platform code developed using **Java 8 and 11**.

    - ▪ Worked as **a Content Service Bus developer** creating modules and orchestrations for content delivery using Java 8.
    - ▪ Worked on content enhancements for the product into in house developed format.
    - ▪ Worked in bits on **Python scraper, AWS** and **Docker.**
    - ▪ **Mentor** and **SME** for the new hires as well as new joiners to the team for **KT and task allocation**

2. AIT Global Inc. Pvt. Ltd. (Dec 2018 – March 2020).

- **Project 1: Docubuilder (Client: Appatura):**
- **Technologies used: Java 8, XSLT 2.0, Spring**
  - o Docubuilder is a software used by the financial companies to create documents of Mutual Funds that can be then filed on SEC (US Securities and Exchange Commission).
    - ▪ Worked extensively on **XSLT 2.0**.
    - ▪ Worked on product enhancements and maintenance of code.
