ABOUT ME

A strong business development professional with a demonstrated history of **3.5 years of experience** in developing E-Commerce solutions (B2B and B2C) based on SAP Commerce. Interested in developing technical solutions using software development skills to solve business problems and generate impact at scale. I rely on accountability, articulation and empathy to complement my technical know-how and has helped me play significant roles as a part of a team to drive results and progress. My resilient efforts to find a solution in times of need give me confidence to take responsibility.
