Work Experience

Worked **at ERD Infotech.**

ERD offers Trade Finance local and global banks, functionally rich trade finance solutions available in today's market.

It supports the complete processing and reporting needs for documentary credits, collections, guarantees and reimbursements. It also automatically captures and generates SWIFT messages and documents.

Instruments of Trade Finance:

- eCommerce Financing
- purchase order financing
- Supply Chain Financing
- Invoice discounting
- Receivable financing
- Letter of Credit

Worked on API Integration on (SWEEP) Service.
Project description:

This Project is an automatic sweep is a programmed order to execute standing instructions that move funds from one account to another. This serves as a convenience for the client, relieving them of the need to enter separate instructions each time a transfer of funds is required or desired, or to write and deposit checks.

Module and Services:
1). Onboarding.
2). Sweep.
3). Pooling.
4). ICL Inter Company Loan.
5). Account Arrangement.
6). Operators Actions
