📄 PROFILE SUMMARY

SAFe ScrumMaster and Scrum Alliance Certified professional with expertise in project management and full knowledge of the end-to-end SDLC process. Highly skilled in facilitating Agile ceremonies, coaching teams, and removing impediments to ensure smooth project delivery. Proven ability to drive continuous improvement and foster collaboration between cross-functional teams. Adept at utilizing Agile methodologies to enhance productivity and deliver high-quality products. Looking to leverage my skills and certification to contribute to a dynamic organization in need of a dedicated and experienced ScrumMaster.

smooth team collaboration
- Identified and addressed impediments to enhance team productivity
- Coordinated with external teams to align project goals and resolve dependencies
- Participated in scrum of scrums to communicate cross-team updates and dependencies
- Led the PI Planning process to prioritize and plan program increments
- Managed release activities to ensure seamless product delivery
- Maintained multiple dashboards to provide visibility into project progress
- Coached junior team members on scrum values, fostering a highly motivated and self-organized team

Scrum Master 2017 - 2022

Wirpo Technologies

- Spearheaded the delivery of all sprints and collaborated with product owners to manage the backlog and ensure continuous feature delivery
- Protected the development team from distractions, impediments, and conflicts, maintaining focus on project timeline and monitoring team performance
- Organized and led agile meetings including sprint planning, retrospectives, demos, daily stand-ups, test plans, and test case reviews to foster open communication in the team
- Participated actively in sprint planning, design, estimation, and story release to ensure end-to-end involvement in the agile process
- Monitored the entire release process, ensuring proper movement of JIRA statuses, timely resolution of open bugs, and maintenance of freeze gates
- Guided the team in estimating story points and measured velocity to effectively plan future sprints
- Conducted and led retrospective sessions and sprint demos to gather feedback and showcase the sprint accomplishments

Senior Software Engineer 2011 - 2017

Wirpo Technologies

- Enhanced and customized Business Object Central Management Console to optimize reporting environments
- Produced intricate reports (Crystal Reports) for application development management regularly and punctually
- Conducted data analysis and resolved issues to ensure smooth functioning of reporting systems

- Oversaw the seamless migration of SAP BO XI R3 to BO 4.0, successfully upgrading from a lower version to a higher one
- Provided critical support to the BO admin team, contributing to the resolution of high-priority issues
- Established and replicated a robust BI environment in the Azure cloud infrastructure
